Lynn Rouse
Administrative Assistant
Evangelical Christian Credit Union
P.O. Box 2400
Brea, CA 92822

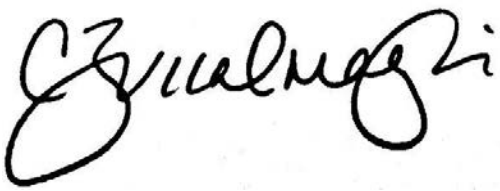
Dear Lynn Rouse,

CREtelligent was contracted by you on behalf of Evangelical Christian Credit Union (herein referred to as "Client") to conduct a Phase I Environmental Site Assessment (herein referred to as "ESA") on a Commercial Property located at 212 S Division Street, Spokane, WA 99202 (herein referred to as "subject site" or "subject site property"). CREtelligent received written authorization from Client on June 17, 2021 to perform the ESA Report. This ESA Report was performed in general accordance with the scope and limitations of ASTM E1527-13, the Engagement Agreement for Services Proposal 21F17-31126 executed by the Client. Exceptions to or deletions from this protocol are discussed in this report.

We appreciate your business. If you have any questions regarding the attached report, or if we can be of any further service to you, please do not hesitate to contact us at (866) 901-7201.

Sincerely,



Christina Zuccalmaglio, Client Success Manager

1.0 EXECUTIVE SUMMARY

CREtelligent has performed a Phase I Environmental Site Assessment (ESA) for the property at 212 S Division Street, Spokane, WA 99202 (subject site) dated July 7, 2021. This ESA was conducted at the request of Evangelical Christian Credit Union using procedures and practices conforming with the ASTM E1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. Any exceptions to or deletions from this practice are described below.

1.1 Findings

The Client of this ESA report should not draw any conclusions and/or take any actions without reading this ESA report in its entirety.

Further, the goal of this ESA is to identify environmentally related risks to the subject property which, when performed in accordance with ASTM Practice E1527-13, constitutes an all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice as defined at 42 U.S.C. §9601(35)(B). Specifically, the goal of this assessment is to identify any of the following conditions affecting the subject site:

Recognized Environmental Condition (REC) "…the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment."

Historically Recognized Environmental Condition (HREC) "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

Controlled Recognized Environmental Condition (CREC) "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

De Minimis Conditions, are by definition, not considered RECs. Rather, *De Minimis Conditions* generally do not present an immediate threat to human health and/or the environment and generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

This assessment has revealed the following evidence of **RECs** in connection with the subject site at this time:

- None

This assessment has revealed the following evidence of **HRECs** in connection with the subject site at this time:

- None

This assessment has revealed the following evidence of **CRECs** in connection with the subject site at this time:

- None

This assessment has revealed the following evidence of **De Minimis Conditions** in connection with the subject site at this time:

- None

1.2 Recommendations

Based on the information referenced in this ESA, CREtelligent recommends the following:

- No further assessment is recommended at this time.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

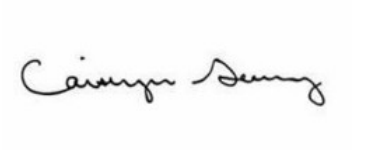
1.3 Project Personnel

Per ASTM standard, this report has been prepared with oversight and final review by an Environmental Professional (EP) as defined in §312.10 of 40 Code of Federal Regulations (CFR) Part 312.

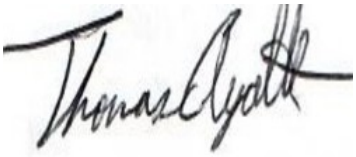
I declare that, to the best of my professional knowledge and belief, I meet the definition of EPA-Certified Environmental Professional as defined in §312.10 of 40 Code of Federal Regulations (CFR) Part 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject site. We have developed and performed the all appropriate inquiries in general accordance with the standards and practices set forth in 40 CFR Part 312.

Robert Fagerness
Environmental Professional

The following CREtelligent personnel were directly responsible for the preparation of this report:



Caitlyn Seavey
Project Manager



Thomas Ayotte
Project Manager

The resumes of the EP and Project Managers are provided in Appendix-Consultant Resumes .

2.0 SUBJECT SITE INFORMATION

The following subsections provide information presented by the client, a current description of the subject site, and a current description of the adjacent properties.

2.1 Client Provided Information

At the time of the ESA initiation, CREtelligent forwarded to the Client's attention a subject site Environmental Questionnaire to be completed by the client and returned to CREtelligent prior to completing this ESA report. Additionally, CREtelligent requested any additional information or previous reports that would further help to identify or alleviate possible Recognized Environmental Conditions (RECs) in connection with the subject site. According to ASTM E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), certain items should be researched by the prospective landowner or grantee, and the results of such inquiries provided to the Environmental Professional preparing the ESA for his/her consideration. At the time of preparing this report, the following information was or was not received from the client:

DOCUMENT TYPE	DOCUMENT RECEIVED	COMMENT
Environmental Questionnaire	Yes	The subject site was identified as a commercial church property with no tanks, environmental citations, claims, complaints, violations, current or historic environmental cleanup activities, or Deed or Land Use Restrictions.
Prior Environmental Site Assessment	No	Not provided at the time of this report.
Survey	No	Not provided at the time of this report.
UST/AST Compliance Documents	No	Not applicable.
Title Records, Environmental Liens, and AULs	No	Not provided at the time of this report.

Please see Appendix - Client Provided Information.

2.2 Property Description

Please refer to the table below for further description of the subject site.

Subject Site Description

IDENTIFIER	DESCRIPTION OF IDENTIFIED ITEMS
Subject Site Type	Commercial Property
Subject Site Address	212 S Division Street, Spokane, WA 99202
Subject Site Legal Description	No legal description was provided. Property boundaries were identified at the time of our site reconnaissance.
Parcel ID	35191.1304
Subject Site Zoning	DTG: Downtown General
Acres	0.85
Number of Buildings	One
Number of Stories	Two-story (with bell tower)
Square Footage	21,850
Year of Construction	1950
Current Use	Church
Current Owner(s) of Subject Site	Redemption Church of Spokane
Current Occupant(s) of Subject Site	Redemption Church of Spokane
Subject Site Utilities	Applicable Provider

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

Adjacent Property Information

	ADDRESS	CURRENT USE	CURRENT OCCUPANT(S)
North	24 W 2nd Avenue	Mixed Use	Donna Hanson Haven
North	172 S Division St.	Commercial	Starbucks
East	211 S Division Street	Commercial	La Quinta Inn & Suites
South	2 W 3rd Avenue	Multi-tenant commercial	The Man Shop Cosmo Prof Fig Tree Home
West	29 W 2nd Avenue	Mixed Use	Spokane Dream Center/Men's Discipleship

Please see Appendix - County Tax Office Information.

3.0 RECORDS REVIEW

The following subsections summarize information obtained through the review of available records. The following subsections include physical settings, historical use information, environmental database search results, agency file review, and vapor migration.

3.1 Physical Settings

The following section provides a brief summary of the physical settings associated with the subject site and general site vicinity. These settings include information on elevation, the topographic slope of the general site vicinity, a description of general soil type, nearest surface water body, and estimated depth and flow direction of groundwater where known.

PHYSICAL SETTING SOURCES	
TOPOGRAPHY	
Elevation	1,934 feet above mean sea level (MSL)
Topographic Quad	Spokane NW, WA 7.5 Minute Quadrangle
General Slope	Towards the west-northwest.
HYDROLOGY	
Nearest Surface Water Body	Spokane River, >2,760 to the north of the site at its nearest point.
Estimated Depth to Groundwater	Estimated to be between 51 and 71 feet below ground surface (bgs), according to 2020 Annual Water Quality Monitoring Report Spokane Valley-Rathdrum Prairie Aquifer Long Term Monitoring Program.
Estimated Groundwater Flow Direction	Likely towards the west-northwest, based upon regional topography.
Flood Zone	X-12: Area of minimal flood hazard.
Wetland	The U.S. Fish and Wildlife Service did not identify any wetlands or wetland features on the subject site or adjoining properties.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

PHYSICAL SETTING SOURCES	
GEOLOGIC INFORMATION	
Geologic Units	Qg1o- Younger glacial drift. Advance and recessional outwash, stratified drift, and associated deposits. Primarily silt, sand, and gravel with some clay. Includes alluvium locally and scabland deposits of eastern Washington. Originating in the Pleistocene epoch.
SOIL	
Soil Name	7105- Urban land, gravelly substratum, 0 to 15 percent slopes. Hydrologic information unavailable.
RADON INFORMATION	
Federal EPA Radon Zone	Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L.

Please see Appendix - Additional Information to review these resources in their entirety.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

3.2 Historical Use Information

To establish the history of the subject site and adjacent properties, CREtelligent ordered, reviewed, and interpreted multiple historical resources. These historical resources include but are not limited to the following: aerial photography; Sanborn/Fire Insurance Maps; and city directories (where available). These resources are summarized below in Section 3.2.1 – Prior Uses of Subject Site and Section 3.2.2 – Prior Uses of Adjacent Properties. These historical resources were provided by CREtelligent's proprietary database and/or third-party sources.

CREtelligent was not able to document the use of the subject site and adjacent properties prior to the first developed use, or prior to the earliest available resource dating back to 1890. The lack of this information represents a data gap. However, based on the other information obtained during the completion of this assessment, it is the environmental professional's (EP's) opinion that the lack of this information does not represent a significant data gap.

3.2.1 Historical Use of Subject Site

Based on the available historical resources, the prior uses of the subject site are summarized in the table below:

Subject Site

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
212 S DIVISION STREET			
1890-1910	Unavailable for review	Tabernacle (1935-1940), Residential (1935-1940)	Not Pictured (1890-1891), Vacant Lot (1902), "The Swedish Tabernacle" with stable and "Dwelling" (1910)
1946-2019	Church (present improvements)	Boarding House (1945-1946), Church (1945-2020)	"1st Covenant Church" with spire and "Sunday School" (1950-1980)

A summary of the concerns specific to the subject site is provided below:

- Based on the available historical resources, prior use of the site has been adequately addressed. No significant data gaps were identified.
- The Fire Insurance Maps (FIMs) identified a historic address associated with the subject site:
    - 1910: 3-19 2nd Avenue and 212 S Division Street.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

- The subject site was initially developed for mixed residential and commercial use sometime between 1902 and 1910. The present improvements appear to have been finalized sometime between 1910 and 1946, though Spokane County lists 1950 as the official year of construction.
- No environmental concerns were identified during the historical review.

Please see Appendix - Historical Resources to review these resources in their entirety.

3.2.2 Historical Use of Adjacent Properties

Per the ASTM guidance, adjacent properties are any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them.

The prior uses of the adjacent properties are summarized in the tables below:

Northern Adjacent Property

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
24 W 2ND AVENUE			
1890-1910	Unavailable for review.	Unavailable for review.	Not Pictured (1890), Vacant Land (1891-1902), "Shed" (1910)
1946	Storage yard (with ancillary buildings)	Coal fuel shop, listed under 22 W 2nd Avenue (1940-1950)	"Wood Yard" with "Auto" garages (1950)
1953-2015	Commercial	Florist (1955-2003)	"Wholesale Florist" (1952-1980)
2017-2019	Commercial (present improvements)	Horse breeding farm (2016)	Unavailable for review.
172 S DIVISION STREET			
1890-1935	Unavailable for review.	Residential, listed under 4 2nd Avenue (1935)	Not Pictured (1890), Vacant Land (1891-1902), "Dwellings" (1910)

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
1946-1995	Commercial	Journeyman and apprenticeship training (1965)	"Plumbers & Steamfitters Local No. 44 Union Hall" (1950-1980)
2005-2019	Commercial (present improvements)	Various small shops and services (2008-2020)	Unavailable for review.

A summary of our historic review for the adjacent northern property is provided below:

- Based on the available historical resources, prior use of the site has been adequately addressed. No significant data gaps were identified.
- The FIMs identified a historic address associated with the northern adjacent property:
  - 24 W 2nd Avenue: 22-24 2nd Avenue and 180 S State Street (1910-1980),
  - 172 S Division Street: 4-12 2nd Avenue, 171 and 179 State Street, and 172 S State Street (1910-1980)
- The northern adjacent property at 24 W 2nd Avenue was initially developed for use as a storage yard sometime between 1910 and 1946. The site was then redeveloped for commercial use sometime between 1950 and 1953.
- The northern adjacent property at 172 S Division Street was initially developed for residential use sometime between 1902 and 1910. The site was then redeveloped for commercial use sometime between 1935 and 1946.
- The northern adjacent property at 24 W 2nd Avenue was identified in our review of available regulatory database listings (Father Back III, Catholic Housing). Please see Section 3.3.3 Off-Site Regulatory Database Review for further discussion.

Eastern Adjacent Property

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
211 S DIVISION STREET			
1890-1960	Residential	Apartments (1935-1960)	"Dwellings" (1890-1955), "Flats" (1910-1955)
1962	Residential and Commercial (contractor yard)	Apartments (1965)	Unavailable for review.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
1972-1982	Gas station and commercial (contractor yard)	Gas station (1975)	"Commercial" and "Contractor Storage Yard & Parking" (1980)
1990-2017	Commercial (rectangular building)	Motel (1990-2000), hotel (2003-2016)	Unavailable for review.
2019-2020	Commercial (present improvements)	Hotel (2020)	Unavailable for review.

A summary of our historic review for the adjacent eastern property is provided below:

- Based on the available historical resources, prior use of the site has been adequately addressed. No significant data gaps were identified.
- The FIMs identified a historic address associated with the northern adjacent property:
    - 1890-1902: 516-528 E 2nd Street and 747 Pine Street
    - 1910-1980: 205-215 S Division Street, 2-30 E 2nd Avenue, and 204-214 S Pine Street.
- The eastern adjacent property was initially developed for residential use sometime before 1935. The site was then redeveloped for residential and commercial use sometime between 1960 and 1962. The property was redeveloped for gas station and commercial use sometime between 1962 and 1972. Finally, the site was redeveloped for solely commercial use sometime between 1982 and 1995.
- Historic resources identified a gas station on the eastern adjacent property from 1972-1982 (identified as Ben Rasley Shell Service [1975]). However, our review of the available regulatory database listings did not identify this gas station. Gas stations are of environmental interest due to their storage of petroleum product either aboveground or underground. The EP does not consider this to be a significant data gap or REC to the subject site for the following reasons:
    - The time elapsed since the facility was last identified as a gas station (~39 years); thus, natural attenuation/degradation of residual contaminants has likely occurred during this time; and
    - The gas station was demolished prior to 1995 and redeveloped twice with commercial buildings; thus, heavy excavation and grading likely reduced or removed any residual contamination or abandoned tanks that may have existed at the site.
    - Groundwater flow in the area has been identified as moving in a north-northwest direction, essentially side gradient (bypassing to the northeast of the subject site buildings).

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

Southern Adjacent Property

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
2 W 3RD AVENUE			
1890-1891	Unavailable for review.	Unavailable for review.	Not pictured (1890-1891)
1910-1982	Mixed Commercial and Residential use	Church (1935-1990), residential (1950)	"St. John's German Lutheran Church (1910-1980), "School Room" (1910), "Dwellings" (1910-1955), "Flats" and "Apartments" (1910-1980)
1995-2006	Church and Apartment	Church (1995-2003), counselor (2003-2008)	Unavailable for review.
2009-2013	Commercial	Not listed	Unavailable for review.
2015	Vacant Land (construction)	Not listed	Unavailable for review.
2017-2019	Commercial (present developments)	Various small shops and services (2008-2020)	Unavailable for review.

A summary of our historic review for the adjacent southern property is provided below:

- Based on the available historical resources, prior use of the site has been adequately addressed. No significant data gaps were identified.
- The FIMs identified a historic address associated with the southern adjacent property:
    - 1902: 2-6 3rd Avenue
    - 1910: 2-20 3rd Avenue
    - 1950-1980: 10-18 W 3rd Avenue and 226 S Division Street.
- The southern adjacent property was initially developed for mixed commercial and residential use sometime before 1910. The site was then redeveloped for solely commercial use sometime between 2006 and 2009.
- No environmental concerns were identified during the historical review.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

Western Adjacent Property

YEAR RANGE	HISTORICAL AERIALS	CITY DIRECTORY	SANBORN/FIM
29 W 2ND AVENUE			
1890-1910	Unavailable for review.	Unavailable for review.	Not Pictured (1890-1891), Vacant Land (1902), "Dwellings" (1910)
1946-2000	Apartments	Apartments (1935-2000)	"31-Apartments" (1950-1980)
2008-2020	Commercial	Church organizations (2008-2020)	Unavailable for review.

A summary of our historic review for the adjacent western property is provided below:

- Based on the available historical resources, prior use of the site has been adequately addressed. No significant data gaps were identified.
- The FIMs identified a historic address associated with the southern adjacent property**:**
    - 1910: 29 2nd Avenue
    - 1950-1980: 27-31 W 2nd Avenue
- The western adjacent property was initially developed for residential use sometime before 1910. The site was then converted to commercial use sometime between 2000 and 2008.
- No environmental concerns were identified during the historical review.

3.3 Environmental Records Review

At the time of writing this report, an CREtelligent EPA-certified environmental professional (EP) reviewed regulatory database information for reported hazardous materials and hazardous waste generator sites in accordance with ASTM Standard E 1527-13. The record base search was provided by a third party who searched the required Federal and State databases with the search radii as established by the ASTM standard. The results of this search are summarized in the Regulatory Database Summary Table below (Section 3.3.1). The results specific to the subject site are presented in Section 3.3.2 while the results specific to neighboring sites are presented in Section 3.3.3 Off-Site Regulatory Database Review . The regulatory database search can be viewed in its entirety in Appendix - Regulatory Database Record Report .

3.3.1 Regulatory Database Review

The results of the regulatory database search are summarized in the table below. These search results rely on the accuracy of the data provided by the third-party vendor, the date at which the databases are updated, and assumption the locations (latitude and longitude) of the identified databases are correct. The full regulatory database records search is provided in Appendix - Regulatory Database Record Report.

3.3.2 Subject Site Regulatory Database Review

The results of the regulatory database search were reviewed by the an EPA-certified environmental professional (EP) specific to the subject site address as well as "orphan or non-plottable" sites which may contain findings specific to the subject site. The results specific to the subject site are summarized below. If warranted, additional review of available regulatory files, on-line information, and/or client provided information is additionally presented to provide an environmental professional opinion on the potential environmental risk associated with the identified regulatory finding.

The following records were identified on the Subject Site property.

- **No Database Findings** - Review of the Regulatory Database Record Report did not identify any Sites of Environmental Concern associated with the Subject Site; therefore, it is the environmental professional (EP's) opinion that no Recognized Environmental Condition (REC) or vapor migration/intrusion concerns are present as a result of the lack of database finding for the subject site.

3.3.3 Off-Site Regulatory Database Review

The EPA-certified environmental professional (EP) has reviewed the findings of the Regulatory Database Report for the surrounding properties not associated with the subject site which are residing within 500-feet of the subject site. Additionally, regulatory database findings associated with state and/or federal superfund sites (where identified within one mile of the subject site) were screened by the EP. As referenced in the "comments" column of the Off-Site Regulatory Database Summary Table presented below, sites where documented releases have occurred and it is the environmental professional's opinion that these sites pose a potential to represent a Recognized Environmental Condition (REC) and/or Controlled or Historical Recognized Environmental Conditions (CREC or HREC) to the subject site, additional discussion is provided.

Per the EP's review and interpretation of available information, other sites which were identified in the regulatory database search but are not summarized in the table below, were not deemed by the professional to pose an increased environmental risk to the subject site for the following reasons: a) Site(s) only hold an operating permit with no documented violations and/or releases to the soil, groundwater, and/or vapor media; b) Site(s) have been granted “No Further Action” by applicable regulatory agency and/or Corrective Action is on-going under the guidance of applicable regulatory agency and/or subject site was not identified as a responsible party, contributor, or off-site impact; c) Site(s) had no documentation indicating they impacted the subject site’s soil, groundwater, and/or vapor media; and/or d) Site(s) distance and/or topographic position relative to the subject site reduces the level of risk associated with the Site(s).

The following records (associated with facilities of environmental significance) were identified on adjacent and/or surrounding properties:

Surrounding Properties Summary

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	COMMENTS
CSCSL, UST, ALL SITES, LUST, ICR, HSL	WHITLEY OIL LLC DIVISION, UNOCAL SS-4986	217 S DIVISION ST, SPOKANE, WA 99202	>75/ESE	13	Please see below for further discussion.
UIC	FATHER BACH III, CATHOLIC HOUSING	24 W 2ND AVENUE, SPOKANE, WA 99201	>75/NNW	-4	A church and Underground Injection Control (UIC) well site associated with four active stormwater wells as of 2016. Based on site use and no reported releases, this site is not considered to be a REC to the subject site at this time.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	COMMENTS
ERTS, ALL SITES, RCRA NON GEN, SPILLS (2)	MR. TUX FORMAL WEAR	45 W 2ND AVE, SPOKANE, WA 99202	>100/W	-8	A former dry-cleaning facility involved in SPILLS/ Emergency Response Tracking System (ERTS) registrations, which appear to involve the same event: a reporting of dry-cleaning chemicals being dumped in 2002. No information regarding the results of the investigation, corrective actions, or status were reported. However, based on the topographical contours of the area and this site residing significantly down-gradient from the subject site, groundwater flow likely migrates to the northwest, which is away from the subject site; thus, mitigating potential groundwater contaminants away from the subject site. Therefore, based on distance and groundwater flow, this site is not considered to be a REC to the subject site at this time.

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	COMMENTS
UST, ALL SITES, SPILLS	7-ELEVEN STORE 2303-32703	177 S DIVISION ST, SPOKANE, WA 99202	>105/NE	5	A gas station with three active 15,000-gal and 10,000-gal (2) double-walled USTs that contain gasoline. A SPILLS incident reported the release of 20 gallons of gasoline after a U-Haul truck struck a dispenser in 2019. "No impacts to environment" was reported and "no further action required." Based on distance, status of the SPILLS incident, and no significant reported releases otherwise, this site is not considered to be a REC to the subject site at this time.
CSCSL NFA, UST, ALL SITES, ICR, LUST	U-HAUL CENTER MIDTOWN 703-50	21 W 3RD ST, SPOKANE, WA 99204	>230/S	4	A Confirmed and Suspected Contaminated Sites List (CSCSL) site involving a release of petroleum to soil media that was closed in 2012. No groundwater impacts were identified; thus, minimizing the likelihood that contaminants could migrate and impact the subject site. Based on status, distance, and no groundwater impacts, this site is not considered to be a REC to the subject site at this time.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

DATABASE	SITE NAME	ADDRESS	DIST. (FT) / DIR.	ELEV. DIFF. (FT)	COMMENTS
CSCSL NFA, ALL SITES, ERTS	WEST CENTRAL LLC	41 W 3RD AVE, SPOKANE, WA 99201	>235/SSW	-3	A CSCSL site involving a release of arsenic to soil media that was closed in 2017. No groundwater impacts were identified; thus, minimizing the likelihood that contaminants could migrate and impact the subject site. Based on status, distance, and no groundwater impacts, this site is not considered to be a REC to the subject site at this time.
RCRA NON GEN, ALL SITES, DRYCLEANERS, FED DRYCLEANERS	CLARKS CLEANERS DIVISION ST	159 S DIVISION ST, SPOKANE, WA 99202	>260/NE	-12	A dry-cleaning facility from 1987 to 2003 with no reported releases or tanks. Based on this site residing significantly down-gradient from the subject site, groundwater flow likely migrates away from the subject site; thus, mitigating potential groundwater contaminants away from the subject site. Based on distance, facility being inactive for the last 18 years, and this site residing down-gradient in relation to the subject site, this site is not considered to be a REC to the subject site at this time.

CSCSL, HSL, UST, ALL SITES, LUST, ICR	WARREN LITTLE LUND BLDG, INLAND LEASING COMPANY	NE CORNER 2ND & MCCLELLAN, SPOKANE, WA 99204	>425/WNW	-18	A CSCSL site associated with a release of petroleum to soil and groundwater media. The case is reportedly open and cleanup is underway; however, groundwater contamination was reported to be below cleanup levels. Based on distance, no groundwater contamination above cleanup levels, and this site residing down-gradient in relation to the subject site, this site is not considered to be a REC to the subject site at this time.
RCRA NON GEN, UST, ALL SITES, CSCSL NFA, ERTS, SPILLS (2)	BFS RETAIL & COMMERCIAL OPERATIONS, LLC, FIRESTONE 31CP	115 W 3RD AVE, SPOKANE, WA 99204	>485/SW	-5	A CSCSL site associated with a release of petroleum to soil media that was closed in 2006 after soil contamination was remediated below cleanup levels. No groundwater impacts were identified; thus, minimizing the likelihood that contaminants could migrate and impact the subject site. Based on distance, status, and no groundwater impacts, this site is not considered to be a REC to the subject site at this time.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

SITE NAME: WHITLEY OIL LLC DIVISION, UNOCAL SS-4986
ADDRESS: 217 S Division St
FINDINGS: The regulatory database identified this site with the following information (the following information are summarized excerpts from the regulatory data (Please see Appendix **–** Regulatory Database Records Report for further details):

- This site resides >75 feet to the southwest of the subject site.
- This site was identified as a former gas station with a Confirmed and Suspected Contaminated Sites List (CSCSL) registration and a Leaking Underground Storage Tank (LUST) registration, which both appear to reference the same event: two releases of petroleum and benzene to soil and groundwater media, which were opened in 1989 and 1997.
- The case is reportedly open and in the monitoring phase. No corrective actions have been reported at the site and soil and groundwater contaminant concentrations were reportedly "confirmed above cleanup levels."
- According to the Site Hazard Assessment Summary Score Sheet provided by the Washington Department of Ecology (DOE), the history of the site was described as follows:
    - "Prior to 1985, one heating oil tank and one waste oil tank were removed from the Site. These two tanks were not replaced. Two underground steel gasoline storage tanks were removed and replaced by two new steel tanks at the same location.
    - In 1989, site investigations were completed to evaluate the presence of contamination beneath the Site, and petroleum contamination was identified in soil and groundwater. Four borings were drilled and monitoring wells were installed (MW-1 through MW-4). Total Petroleum Hydrocarbons (TPH) and xylenes were detected in soil samples from borings. Benzene, toluene, ethylbenzene, and xylenes (BTEX) were detected in groundwater samples. TPHs was detected below cleanup levels in groundwater samples.
    - In March 1990, two additional monitoring wells (MW-5 & MW-6) were installed downgradient beneath the service station.
    - In February 1990, two steel 10,000 gallon gasoline storage tanks, segments of the product lines, and associated contaminated soil and fill material was removed. Lab results showed that TPH and BTEX were present in soil but below detection limits or were less than current Ecology cleanup levels. During the removal, two groundwater monitoring wells (MW-1 and MW-6) were destroyed. Benzene concentrations in groundwater beneath the Site were identified above Model Toxic Control Act (MTCA) Method A cleanup level.
    - On May 1991, during a site visit, GeoEngineers observed the installation of new underground storage tanks and petroleum dispensing equipment to prepare the newly remodeled Site to once again become a fueling station. The new owners opened the fueling station in June 1991. During the October 1991 sampling event, results showed an increase in benzene concentrations from the previous sampling event.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

- In April 1994, Unocal and Mr. McGranahan entered into a settle agreement with respect to the remediation of the site. According to the agreement, analytical data collected in November 1992, will be used as a baseline for comparison purposes to assess financial liability for site remediation.
- From November 1992 till June 1994 there has been an increase in BTEX and Gasoline Range Hydrocarbons (GRPH) in the groundwater samples.
- In June 1994, a new monitoring well (MW-7) was installed. This new well was installed approximately twenty feet from MW-6. The purpose of MW-7 was to gather more representative samples of groundwater beneath the site and eliminate the potential bias from stormwater infiltration that may be coming from a drywell.
- In the Quarterly Groundwater Sampling Report of July 1997, an unusually high concentration of ethylbenzene, toluene, xylenes, and gasoline were detected. Based on the results, the negotiated baseline values were exceeded by ethylbenzene, toluene, xylenes, and gasoline in MW-2, and benzene in MW-5.
- In October 1997, Ecology sent a letter to Mr. McGranahan regarding the dramatic increase in gasoline contamination at the Site. This significant of an increase would indicate that a spill had occurred. An initial investigation was conducted on October 6, 1997. During the investigation, Mr. McGranahan confirmed a pipe had leaked but had been found and repaired. An Early Notice Letter was sent to Mr. Granahan on October 9, 1997.
- From October 1997 through June 2005 quarterly groundwater monitoring continued with BTEX and GRPH levels exceeding MTCA Method A cleanup levels.
- According to a June 2005 Groundwater Monitoring Report by ENSR International, elevated concentrations of benzene at groundwater monitoring well MW-6 and gasoline-range hydrocarbons at groundwater monitoring well MW-7 may be a result of a recent gasoline spill at the site.
- Reports from March and April 2006, show significantly elevated levels of gasoline contamination in on-site monitoring wells. This information suggest that a recent spill from the underground storage tank system could be responsible. A soil sample was taken from a drywell located up gradient from MW-6. The soil sample from the dry well had 1,71O mg/kg of GTPH and 37.5 mg/kg of benzene which are above MTCA Method A cleanup levels.
- The May 2006 report indicate that the baseline groundwater contamination levels agreed upon in the settlement were exceeded.
- In August 2006, Ecology decided that the dry well needed to be sealed off. A November 5, 2006 letter from Brian Whitley indicates that the drywell near the dispenser island has been cleaned out and sealed off.

- The Site Hazard Assessment reported groundwater flow as migrating to the north-northwest, which is side-gradient to up-gradient to the subject site; therefore, groundwater contamination migration towards the subject site cannot be ruled out.
- However, the Site Hazard Assessment did not report any elevated petroleum contamination concentrations in *off-site* wells; thus, indicating that groundwater contamination is limited to the origin site.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

- Therefore, based on the above information, oversight of the case by the Washington DOE, and no off-site report of elevated groundwater contamination, the above conditions at the site, as interpreted by the EP, DO NOT represent REC or potential vapor migration/intrusion concern to the subject site at this time.

3.4 Agency Records Review

If pertinent regulatory files and/or records are identified and are associated with identified environmental concerns for the subject site and/or off-site listings, that information (as provided to CREtelligent as of the date of this report) has been added into Sections 3.3.2 Subject Site Regulatory Database Review or 3.3.3 Off-Site Regulatory Database Review in general accordance with ASTM E 1527-13 practice. The purpose of the additional regulatory agency file review is to obtain sufficient information to assist CREtelligent personnel in determining if a REC, HREC, CREC, or a De Minimis condition exists at the subject site in connection with the identified database listings. The following additional environmental records were reviewed to supplement the standard environmental record database search discussed in Sections 3.3.2 Subject Site Regulatory Database Review and 3.3.3 Off-Site Regulatory Database Review.

State and Federal Agencies

DATE	RESOURCE	COMMENTS
06/21/21	Environmental Protection Agency (EPA)	According to the online database search, no records were on files for the subject site.
06/21/21	Washington Department of Ecology (WA DOE) (Request #P006208-062121)	As of the date of this report, CREtelligent has not received a response from this agency.

Local Agencies

DATE	RESOURCE	COMMENTS
06/21/21	City of Spokane (Request #C000760-062121)	A response was received and no records were on file for the subject site.
06/29/21	City of Spokane Online Permitting	Files were available for the subject site. See Appendix Regulatory Agency Records.
06/21/21	Spokane County	A response was received and no records were on file for the subject site.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

- CREtelligent requested regulatory files for the subject site and/or off site concerns; however, as of the date of this report, limited agency response has been received. Based on the quality of information obtained from other sources, the EP does not consider the lack information from regulatory agencies a significant data gap.

Please see Appendix-Regulatory Agency Records .

3.5 Vapor Migration

Indoor air quality concerns are generally excluded from the scope of ASTM E1527-13 and this assessment. The migration of volatile compounds through either volatilization of dissolved groundwater plumes or vapor advection and dispersion from relatively nearby sources (on- or off-site) caused by a documented release of hazardous substances or petroleum products to the subsurface environment can represent a REC to the subject site in certain conditions.

For the purposes of this assessment, the potential for vapor migration that may represent a REC to the subject site was evaluated by the EP using a limited screening method based on the type of contaminant, location of contaminant (or release) with relation to the subject site, documented extent of chemicals in subsurface, and groundwater flow direction. In addition, screening tools created by regulatory agencies (EPA and various state agencies) may be used to evaluate the significance of a release with respect to the vapor migration and/or vapor intrusion potential concerns. This screening approach is not to be confused with a human health risk assessment, but rather a conservative approach at assessing if a possible risk exists. Please see Sections 3.3.2 Subject Site Regulatory Database Review and 3.3.3 Off-Site Regulatory Database Review which summarize the findings of this assessment.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

4.0 INTERVIEWS

During this ESA, CREtelligent conducted interviews in connection with the subject site. The information gained from the interviews conducted by CREtelligent for this ESA were obtained from sources considered reliable and believed to be true and correct. However, CREtelligent has made no independent investigation as to such matters and undertakes no responsibility for the accuracy of these items.

At the time of this report, CREtelligent attempted to conduct interviews with the owner and past owners, operators and occupants:

- Property owner contact information was not made available at the time of writing this report. However, the ministry operations director for the subject site was made available for an interview. Based on the site inspection, site contact interview, and other informational resources, the EP does not consider the lack of an owner interview a significant data gap.

- Interviews with past owners, operators, and occupants were not conducted. This is a data gap. However, based on information identified in the regulatory database report and site reconnaissance, the environmental professional does not consider this to be a significant data gap.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

5.0 FIELD RECONNAISSANCE INTRODUCTION

The objective of the field reconnaissance is to visually and physically observe the property and any structure(s) located on the property in order to determine the likelihood of environmental impact to the property.

5.1 Site Contact Interview

The following is the response from the interview of the site contact made during the site reconnaissance.

QUESTION	ANSWER
Date	June 23, 2021
Site Contact Name	Jonathan Bonetti
What is your title/position?	Ministry operations director.
How long have you been employed at this location?	The contact has held the title for four years.
What was the year of construction?	The sanctuary was built around 1950, and the contact guesses that the other part of the building was built around 1900 - at least before 1911, based on documents found in the basement.
What is the current occupant/s? Describe their operations.	Redemption Church Spokane, operating as Redemption Spokane.
What was the past occupant/s? Describe their operations.	First Covenant Church.
Do you have an operational permit? If so, for what purpose?	Permit for a boiler in the basement that gets inspected every two years, and a standard occupancy permit.
Are there any previous Environmental studies or surveys associated with this address?	Not sure, trying to find record of that. The contact may have had one five years ago, but does not have any on hand at the time of the interview.
Is there a site map, fire emergence map, and/or rent roll available?	Yes, fire escape maps posted throughout the building.
What is the plan for future use of the property?	To continue in its current use.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

5.2 Subject Site Observations

The following lists the areas of the subject site that were or were not accessible during our site visit.

QUESTION	ANSWER
What locations on the subject site **WERE** observed/inspected to evaluate the environmental condition of the subject site?	All locations on the subject site were observed by the site inspector.
What locations on the subject site **WERE NOT** observed/ inspected to evaluate the environmental condition of the subject site? (not accessible)	All locations on the subject site were made accessible to the site inspector.
Were there any discrepancies noted in property boundary? Different from the image provide?	No discrepancies were noted in the property boundary.
Were adjacent properties observed from the subject property premises? Were any items of environmental concern identified?	All adjacent properties except for the western adjacent property were observed from the subject site, and no items of environmental concern were identified.

5.3 Observations Checklist

The following are the observations that were collected specifically to the ASTM inspection criteria for "*Interior and Exterior Observations*" .

ASTM OBSERVATIONS	INSPECTOR / CONTACT OBSERVATIONS (YES/ NO)	COMMENTS
Emergency Generators	No	
Elevators	No	
Air Compressors	No	
Hydraulic Equipment	No	
Evidence of Aboveground Storage Tanks	No	
Drums, Barrels and/or Containers > 5 Gallons	No	

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

ASTM OBSERVATIONS	INSPECTOR / CONTACT OBSERVATIONS (YES/ NO)	COMMENTS
Cleaning and/or Similar Supplies	No	
Evidence of Underground Storage Tanks	No	
Sumps, Cisterns, Catch Basins and/or Dry Wells	No	
Grease Traps	No	
Septic Tanks and/or Leach Fields	No	
Oil/Water Separators	No	
Pipeline Markers	No	
Interior Floor Drains	No	
Pad or Pole-Mounted Transformers and/or Capacitors	No	
Stressed Vegetation	No	
Stained Soil	No	
Stained Pavement or Similar Surface	No	
Leachate and/or Waste Seeps	No	
Trash, Debris and/or Waste Materials	No	
Dumping or Disposal Areas	No	
Construction/Demolition Debris and/or Dumped Fill Dirt	No	
Surface Water Discoloration, Odor, Sheen and/or Free-Floating Product	No	
Strong, Pungent or Noxious Odors	No	
Exterior Pipe Discharge and/or Other Effluent Discharges	No	

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

ASTM OBSERVATIONS	INSPECTOR / CONTACT OBSERVATIONS (YES/ NO)	COMMENTS
Laboratory Hoods and/or Incinerators	No	
Waste Treatment System and/or Water Treatment Systems	No	
Compressor Blowdown	No	
Surface Water Bodies	No	
Quarries or Pits	No	
Additional/Other Observations	No	

At the time of the site reconnaissance, there were no obvious signs of significant hazardous waste material storage/ use, hazardous waste generation, ill-appropriate disposal, staining, and/or other indications of releases noted on the subject site.

Please see Appendix – Subject Site Photographs *for additional perspective.*

6.0 DATA GAPS

Data gaps with the information gathered for this assessment exist (if applicable) and are addressed in the appropriate sections of this Report. However, because the data gaps were not determined to be material in identifying Recognized Environmental Conditions, they are not considered by ASTM standards to be "significant" and, therefore, are not individually addressed in this section. Significant data gaps that are identified by the EP are addressed in the appropriate sections of this Report.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

7.0 ABOUT THIS ENVIRONMENTAL SITE ASSESSMENT REPORT

On June 17, 2021, Lynn Rouse of Evangelical Christian Credit Union retained CREtelligent to conduct a Phase I Environmental Site Assessment of the property at 212 S Division Street, Spokane, WA, 99202 (herein, the "subject site" or "subject property"). This assessment was performed in general conformance with ASTM E1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process," following all prescribed methodologies and protocols detailed in this Practice.

Any environmental Site Assessment that meets or exceeds the above-described methods is presumed valid under all applicable standards. Any exceptions to, or deletions from, this Practice are described in this report.

This report is valid for 180 days beginning July 7, 2021.

7.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Practice E1527-13) affecting the subject property that: 1) constitute or may result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in this ESA Report intended to be used by the Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws restricting financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA is thus intended to assist the user in satisfying "one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections)" on CERCLA Liability as defined at 42 U.S.C. §9601 (35) (B). In order to maintain landowner liability protections, the user also has a "continuing obligation to not interfere with activity and use limitations associated with the property," must take "reasonable steps to prevent releases," and must "comply with legal release reporting obligations" (ASTM E1527-13).

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

7.2 Scope of Work

In accordance with ASTM Practice E1527-13, CREtelligent's assessment activities included: 1) a review of available historical resources (e.g. historical aerial photographs, city directories, and fire insurance maps; 2) a review Federal, State, County, and Local regulatory agency records; 3) a review of a regulatory database report provided by a third-party vendor; 4) onsite reconnaissance of the subject property and adjacent properties; and 5) interviews, when reasonably possible, with onsite personnel and the subject site owner(s).

During the site visit, an CREtelligent representative conducted site reconnaissance to assess the possible presence of petroleum products and/or other hazardous materials on the subject site and made every reasonable effort to interview site personnel about current and past subject site use.

7.3 Report Reliance

In accordance with the terms of CREtelligent's Client Services Agreement, which governs the nature, scope, and purpose of this ESA, all reports, both verbal and written, are for the sole benefit of Evangelical Christian Credit Union, its affiliates, successors and assigns, as well as lending institutions involved in securing financing for the subject property. Other parties may not rely on this report without written consent from CREtelligent.

Third parties coming into possession of all or part of this report, whether verbal or written, must obtain written permission from CREtelligent for report reliance. Specific conditions and fees may apply to third-party reliance letters. In the absence of a written agreement with CREtelligent, no third party shall have any rights of recourse or recovery whatsoever under any course of action against CREtelligent, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold CREtelligent as well as Evangelical Christian Credit Union and their respective officers, employees, vendors, successors, and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such report reliance. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply for unauthorized use of this report.

All facsimile transmissions, accompanying documents, and signatures shall be treated as original documents and shall bind and inure the parties involved in this agreement.

7.4 Significant Assumptions

While compiling this report, CREtelligent has assumed the veracity of sources of information widely considered within the industry to be authoritative, true, and correct. Nevertheless, CREtelligent has conducted no independent survey of the subject site nor made any independent investigation verifying the veracity of its sources. CREtelligent assumes no responsibility for the accuracy of these sources. All descriptions of dimensions, capacities, quantities, distances, historical site use, and ownership history information gathered from these sources are provided to assist the Client in visualizing the property and evaluating its likely exposure to environmental risk.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

Further, it is assumed that all environmental site assessments contain data gaps. Data gaps that may be filled in by reasonable inference or that are unlikely to have a material effect on the environmental health of a property are considered insignificant and have been identified as such throughout this report. Significant data gaps, such as the current disposition of an environmental cleanup action or the number of hazardous materials used, stored, and/or hazardous waste generated on the subject site, are also identified and discussed. Significant data gaps may result in a recommendation for further assessment.

7.5 Limitations

CREtelligent warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in ASTM Practice E1527-13 at "Scope of Work." These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. However, even with the proper application of these methodologies, conditions may exist on the subject property that could not be identified within the scope of the assessment or which were not reasonably identifiable from available information. Further, the conclusions and findings set forth in this report are strictly limited in time to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. CREtelligent makes no other warranty, either expressed or implied.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is therefore subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those interviewed.

ASTM Practice E1527-13 does not address requirements of any state or local laws or of any federal laws other than the all-appropriate inquiry provisions of the landowner liability protections. Further, this report does not intend to address all possible safety concerns, if any, associated with the subject property. While CREtelligent may comment on such matters, this report may not be construed as or used to certify that conditions on the subject site do not pose safety or health risks to its occupants or their visitors.

7.6 Limiting Conditions

No ESA can wholly eliminate uncertainty about whether environmental concerns affect the subject property. This report, therefore, is intended to reduce rather than eliminate uncertainty.

The performance of this ESA does not, in and of itself, meet the eligibility requirements qualifying landowners for certain liability protections set forth in 40 Code of Federal Regulations (CFR), Part 312, and authorized under the CERCLA.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

Conditions may exist which were not identified as a result of our site reconnaissance or review of available historical and regulatory resources which might otherwise impact our conclusions concerning the condition of the subject property. Any conditions discovered or revealed which were not identified during the completion of this assessment should be reported to CREtelligent upon discovery and may impact the conclusions and recommendations of this Report.

CREtelligent utilized limited information concerning regulatory compliance in the preparation of this ESA report; however, this report is not intended as a compliance audit and may not be assumed to be, relied upon, or otherwise utilized as evidence of regulatory compliance.

In addition, the findings and conclusions expressed in this report are subject to all the limitations inherent to the methodologies prescribed in ASTM Practice E1527-13. Specific limitations, such as the unavailability of owner contact information, responses to FOIA requests not made available within agreed-upon service deadlines, areas inaccessible to the CREtelligent inspector at the time of site reconnaissance, etc. are noted and their impact discussed in the appropriate sections of this report.

7.7 Limitations of Liability

CREtelligent's liability, if any, for any claim, costs, loss or damage resulting from CREtelligent's negligence, if any, relating to this agreement or the work performed pursuant hereto shall not exceed the amount of the payment(s) actually received by CREtelligent hereunder; provided, however, CREtelligent's liability, if any, for claims involving “professional liability”, “general liability” or “pollution liability” shall not exceed the amount of insurance maintained by CREtelligent. CREtelligent currently maintains (i) professional liability insurance, general liability insurance, and pollution liability insurance in the amount of $1,000,000 and an umbrella liability policy in the amount of $2,000,000.

7.8 Dispute Resolution

CREtelligent and Evangelical Christian Credit Union agree to make good-faith efforts to settle any dispute or claim that arises under this Agreement or the work performed under its conditions through discussion and negotiation. The dispute resolution process will be initiated by either party giving the other party written notice that a dispute exists (“Notice of Dispute”), setting forth the facts and circumstances surrounding the dispute. Within 15 days of the delivery of the Notice of Dispute, the Parties shall meet at a mutually acceptable date, time, and place, attempting to informally resolve the dispute. If the dispute has not been resolved through these negotiations, the Parties agree that any claim or action relating in any way to this Agreement or the work performed pursuant hereto, shall be resolved through binding arbitration pursuant to the rules of the American Arbitration Association. The site of any arbitration proceedings shall be at CREtelligent, 11344 Coloma Road, Gold River, CA 95670 unless otherwise agreed to by the Parties.

© 2019-2020 CREtelligent. All Rights Reserved | Patent Pending

7.9 Legal Venue

Our Client Services Agreement embodies the entire agreement and understanding between CREtelligent and Evangelical Christian Credit Union, and supersedes any prior agreements and understandings relating to its subject matter. This agreement shall be governed by and construed in accordance with the laws of Sacramento County, California (without regard to its conflict of laws provisions). The parties hereto hereby agree that the venue of any action under this agreement shall be exclusively in Sacramento County, California and that this agreement is performable in part in California.

ASTM E 1527-13/E 2247-08 Phase I Environmental Site Assessment
Pre-Survey Questionnaire and Disclosure Statement

In accordance with the American Society of Testing Materials (ASTM) 1527-13 / 2247-08 (Appendix X.3), the user of the Phase I ESA herein must provide information as answered in good faith to the extent of his or her actual knowledge to Assessment Associates, Inc. (the Environmental Professional). Failure to provide complete information could result in a determination that "all appropriate inquiry" has not been met under ASTM 1527-13 / 2247-08.

Please complete this questionnaire before Assessment Associates, Inc.'s site visit. For those questions that are not applicable please respond with an "N/A" entry so as to ensure we understand the question has not been missed. If you have any questions about an entry please call the designated Assessment Associates, Inc. project manager at 503.233-8565. If additional pages for response are necessary, please attach them to this form; a blank page is attached to the end of this questionnaire. This document and your written responses will be used as an exhibit in the Phase I Environmental Site Assessment (ESA) report, and as such, please ensure that it is signed under Section 1 (below).

Please Return The Completed Form To:

SITE HAZARD ASSESSMENT
Worksheet 1
Summary Score Sheet

SITE INFORMATION:

Cleanup Site ID: 8398

Whitley Oil LLC Division, AKA Unocal SS-4986

Facility/Site ID: 23886367

3 E. 3rd Avenue, formerly 217 S. Division Street

Spokane, Spokane County, WA 99205

Section:	20	Latitude:	47.65416
Township:	25N	Longitude:	-117.41076
Range:	43E	Tax/Parcel ID:	35202.2212

Site scored/ranked for the Hazardous Sites List Publication: August 2019

SITE DESCRIPTION:

The Whitley Oil LLC Division site (Site) is a gasoline station located in Spokane, Spokane County, Washington. The 0.24-acre property is located approximately 3054 feet from Spokane River, and zoned for commercial use.

Adjacent properties include the Fair Bridge Inn to the north, the Redemption Church of Spokane to the northwest, Peppertree Plaza- strip mall with various businesses to the west, Miller Paints to the east, Dick's Hamburgers to the south and Enterprise Rental Car to the southwest. The Site is located at the northeastern corner of 3rd Avenue and Division Street.

The Site is currently operated as fueling station by Brian Whitley.

Historically, the Site appears to have be used as a fueling station. The Site has been owned and operated by two main entities Unocal SS-4986 and James McGranahan (owner of JRM Service). The Site is now an Exxon gas station located in Spokane, Spokane County, Washington. The .24-acre property is located approximately 3054 feet from the Spokane River, and zoned for commercial use.

The Site is currently active and the business is owned by Brian Whitley. The property is owned by TDR, Inc.

Nearby cleanup sites include U-Haul Center Midtown 703-50 (Cleanup Site ID [CSID] 8604 approximately 131 feet southwest of the Site, West Central LLC (CSID 14423) approximately 382 feet southwest of the Site, North American Biologicals approximately 634 feet west of the Site, 2GO Tesoro 62148 (CSID 8059) approximately 750 feet and Sprague Pest Control (CSID 1340) approximately 661 feet north of Site. U-Haul Center Midtown 703-50 was given a No Further Action (NFA) determination in 2012. West Central LLC was given a NFA determination in 2017. North American Biologicals was given a NFA determination in 1996. 2GO Tesoro 62148 was given a NFA determination in 2016. Jones Radiator was given a NFA determination in 2011. Sprague Pest Control is in the cleanup process.

SITE BACKGROUND:

A summary of prior operations/tenants at the subject property is presented below.

From	To	Operator/Tenant	Activity
1999		Tenant: Whitley Oil LLC, Landlord: Dick's Hamburger (TDR, Inc)	Gas Station
1950	1962	Jay Fancy	
1962	1968	UNOCAL	Gas Station
1968	1988	Scarteen Corporation	Gas Station
1988	1990	James McGranahan	Gas Station

SITE HAZARD ASSESSMENT
Worksheet 1
Summary Score Sheet

1990	1999	Tenant: Whitley Oil LLC, Morgagee: James McGranahan, Landlord: Dick's Hamburger (TDR, Inc)	Gas Station

SITE CONTAMINATION:

In 1989 the Whitley Oil LLC Division site was reported to Washington State Department of Ecology (Ecology) and placed on the Confirmed and Suspected Contaminated Sites List (CSCSL).

In 1989, the JRM Service Site was reported to Washington State Department of Ecology (Ecology) and placed on the Confirmed and Suspected Contaminated Sites List (CSCSL).

Prior to 1985, one heating oil tank and one waste oil tank were removed from the Site. These two tanks were not replaced. Two underground steel gasoline storage tanks were removed and replaced by two new steel tanks at the same location.

In 1989, site investigations were completed to evaluate the presence of contamination beneath the Site, and petroleum contamination was identified in soil and groundwater. Four borings were drilled and monitoring wells were installed (MW-1 through MW-4). Total Petroleum Hydrocarbons (TPH) and xylenes were detected in soil samples from borings. Benzene, toluene, ethylbenzene, and xylenes (BTEX) were detected in groundwater samples. TPHs was detected below cleanup levels in groundwater samples.

In March 1990, two additional monitoring wells (MW-5 & MW-6) were installed downgradient beneath the service station.

In February 1990, two steel 10,000 gallon gasoline storage tanks, segments of the product lines, and associated contaminated soil and fill material was removed. Lab results showed that TPH and BTEX were present in soil but below detection limits or were less than current Ecology cleanup levels. During the removal, two groundwater monitoring wells (MW-1 and MW-6) were destroyed. Benzene concentrations in groundwater beneath the Site were identified above Model Toxic Control Act (MTCA) Method A cleanup level.

On May 1991, during a site visit, GeoEngineers observed the installation of new underground storage tanks and petroleum dispensing equipment to prepare the newly remodeled Site to once again become a fueling station. The new owners opened the fueling station in June 1991. During the October 1991 sampling event, results showed an increase in benzene concentrations from the previous sampling event.

In April 1994, Unocal and Mr. McGranahan entered into a settle agreement with respect to the remediation of the site. According to the agreement, analytical data collected in November 1992, will be used as a baseline for comparison purposes to assess financial liability for site remediation.

From November 1992 till June 1994 there has been an increase in BTEX and Gasoline Range Hydrocarbons (GRPH) in the groundwater samples.

In June 1994, a new monitoring well (MW-7) was installed. This new well was installed approximately twenty feet from MW-6. The purpose of MW-7 was to gather more representative samples of groundwater beneath the site and eliminate the potential bias from stormwater infilitration that may be coming from a drywell.

In the Quarterly Groundwater Sampling Report of July 1997, an unusally high concentration of ethylbenzene, toluene, xylenes, and gasoline were detected. Based on the results, the negotiated baseline values were exceeded by ethylbenzene, toluene, xylenes, and gasoline in MW-2, and benzene in MW-5.

In October 1997, Ecology sent a letter to Mr. McGranahan regarding the dramatic increase in gasoline contamination at the Site. This significant of an increase would indicate that a spill had occurred. An initial investigation was conducted on October 6, 1997. During the investigation, Mr. McGranahan confirmed a pipe had leaked but had been found and repaired. An Early Notice Letter was sent to Mr. Granahan on October 9, 1997.

SITE HAZARD ASSESSMENT
Worksheet 1
Summary Score Sheet

From October 1997 through June 2005 quarterly groundwater monitoring continued with BTEX and GRPH levels exceeding MTCA Method A cleanup levels.

According to a June 2005 Groundwater Monitoring Report by ENSR International, elevated concentrations of benzene at groundwater monitoring well MW-6 and gasoline-range hydrocarbons at groundwater monitoring well MW-7 may be a result of a recent gasoline spill at the site.

Reports from March and April 2006, show significantly elevated levels of gasoline contamination in on-site monitoring wells. This information suggest that a recent spill from the underground storage tank system could be responsible. A soil sample was taken from a drywell located up gradient from MW-6. The soil sample from the dry well had 1710 mg/kg of GTPH and 37.5 mg/kg of benzene which are above MTCA Method A cleanup levels.

The May 2006 report indicate that the baseline groundwater contamination levels agreed upon in the settlement were exceeded.

In August 2006, Ecology decided that the dry well needed to be sealed off. A November 5, 2006 letter from Brian Whitley indicates that the drywell near the dispenser island has been cleaned out and sealed off.

.

REMEDIATION ACTIVITIES:

Prior to 1985, heating and waste oil tanks were removed and not replaced.

In May 1989, two underground steel gasoline storage tanks were removed and replaced with two new steel tanks at the same location. At this time four onsite boring/monitoring wells were installed.

In February 1990, two 10,000 gallon underground gasoline storage tanks and associated product lines were removed. A Phase 1 site cleanup consisted of removal of approximately 500 cubic yards of petroleum-contaminated soil (PCS) from the gasoline tank and product line excavation. The PCS was transported to Unocal's Spokane Bulk Plant for treatment.

Groundwater monitoring occurred every two months from June 1989 through April 2006. In April 2006, groundwater sampling results show benzene and GRPH concentration to be above MTCA Method A cleanup levels. Ecology does not have any documentation on file that groundwater monitoring continued to occur after April 2006.

CURRENT SITE CONDITIONS:

Currently, there is an active gas station at this location. The current activities could continue to contribute to contamination.The surface cover is paved. Over the years, approximately 7 monitoring wells were installed onsite. Drinking water is provided by the City of Spokane.

The approximate depth to groundwater is 8 to 9 feet below ground surface, with groundwater flowing to the north northwest. Subsurface soils are Sands and gravel.

SPECIAL CONSIDERATIONS:

Checked boxes indicate routes applicable for Washington Ranking Method (WARM) scoring

☐ **Surface Water**

No surface water in close proximity to the Site.

☑ **Air**

SITE HAZARD ASSESSMENT

Subject: Public Records Request - 212 S Division St, Spokane, WA 99202
Date: Monday, June 21, 2021 at 7:40:14 PM Eastern Daylight Time
From: Caitlyn Seavey
To: kcooke@spokanecounty.org
A achments: image001.png

Hello,

My company has been engaged to perform an environmental site assessment of commercial land located at 212 S Division St, Spokane, WA 99202. As part of our due diligence and in accordance with ASTM production standards, we're requesting any documents that may exist regarding permits (tanks, dry-cleaning, printing, fuel dispensing, hazardous waste), tanks, spills, releases of hazardous materials, or known contaminated sites on our subject property.

Thank you in advance for your efforts,

Caitlyn Seavey | Environmental Project Manager

CREtelligent
Commercial Real Estate Due Diligence. Simplified.

Request / Incident Summary

Request Type:	City Records Request
Description:	The City of Spokane provides access to public records in compliance with applicable laws and statutes of the State of Washington. In accordance with the public records law, the City has five business days to respond to a request for public records.
Contact E-Mail:	c.seavey@cretelligent.com
Reference No:	C000760-062121
Status:	Assigned
Balance Due:	$0.00

What is a public record?

How are the five business days calculated when responding to a public records request?

How can I get accident reports?

How do I obtain copies of a birth, death, marriage, or divorce certificate?

Is a public records request confidential?

What public information is exempt from disclosure?

Must the City create a document when responding to a specific request for public disclosure?

Where can I find the City Charter?

Payments: $0.00

Additional Information

Type of Records Requested: Administrative
Fire/EMS

Company/Affiliation: CREtelligent

Date/Date Range Start:

Date Range End:

Describe the Record(s) Requested: My company has been engaged to perform an environmental site assessment of commercial land located at 212 S Division St, Spokane, WA 99202. As part of our due diligence and in accordance with ASTM production standards, we're requesting any documents that may exist regarding permits (tanks, dry-cleaning, printing, fuel dispensing, hazardous waste), tanks, spills, releases of hazardous materials, or known contaminated sites on our subject property.

Be as specific as possible. Failure to provide specific information will result in the delay of fulfilling your request. Please provide all information you have concerning your request.

Electronic Records: Yes

Mark "Yes" if you would like the City's search for responsive records to include records held in digital format (e.g., emails). If "Yes," digitally-

stored records may be searched electronically, using key words. If possible, state the key word(s) to be included in these search(es) such that you would consider the electronic search(es) to comprise a reasonably adequate effort to locate all electronic records you seek

Search Terms:

Search term(s) (if more than one, insert commas to separate; place quotation marks (“”) around phrases)

Preferred Method to Receive Records:

Electronic via Records Center

Please note not all public documents are available in electronic format. If the document(s) requested are not available electronically, we will make them available for inspection or by paper copy in accordance with the Public Records Law. Standard fees may apply for requests that require copies, scanning, digital storage media, and postage or delivery charges (including mailing supplies). See FAQs for more details.

I, the undersigned do declare as follows: I understand that the use for commercial purposes of public documents which contain lists of individuals, violates Washington State Law and the privacy rights of such individuals. I understand that at a minimum, "commercial purposes" means that such lists will be utilized to contact or affect such individuals to facilitate, in any manner, profit-expecting activity. Therefore, I agree not to use the above-requested document(s) and I acknowledge an affirmative duty to prevent others from using such document(s) for commercial purposes.

I declare under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct:

Yes

The processing of your request or an official response to your request may take up to five (5) business days in accordance with RCW 42.56.520. The department cannot respond to your request to inspect or copy a record unless this form and declaration of non-commercial use is completed. If you have questions, please ask one of our employees.

NOTE: The Public Disclosure Act is to provide the public full access to non-exempt records concerning government conduct to the extent such records are not made exempt by the Act, in a manner that does not unduly impair the public's entitlement to receive effective and efficient performance of the City's governmental duties and functions, and that respects legally-protected privacy rights. A question or request for information is not a request for a record, nor is a request that the City compile data, create a record, or produce a record not in existence at the time the request is received. General questions specific to certain divisions/departments/sections should be directed to My Spokane Customer Service by dialing 311, or outside Spokane city limits, 509-755-CITY, or email my311@spokanecity.org.

From: Spokane Public Records Center
To: Caitlyn Seavey

--- Please respond above this line ---

If you wish to submit a response, update an exisHng request, check the status of an already submiKed request, or submit a new public records request, please do so by replying to this noHficaHon or go through your "My Request Center" account on the City's public records request portal

In accordance with the Public Records Act (PRA), RCW 42.56.520, this message acknowledges receipt of your PRA request, received by the City of Spokane on June 21, 2021. This request has been assigned tracking number C000760-062121. Please use this number in any communicaWons concerning this request.

Specifically, you requested:

"My company has been engaged to perform an environmental site assessment of commercial land located at 212 S Division St, Spokane, WA 99202. As part of our due diligence and in accordance with ASTM producWon standards, we're requesWng any documents that may exist regarding permits (tanks, dry-cleaning, prinWng, fuel dispensing, hazardous waste), tanks, spills, releases of hazardous materials, or known contaminated sites on our subject property."

Your request was forwarded to staff in the City's Fire Department and Environmental Programs for review and compiling of any responsive records. No responsive records were located by Environmental Programs.

This is to advise that a responsive record located by Fire Department staff is available by accessing your account via the My Request Center on the City's public records request portal (GovQA).

If you haven't already, you may wish to submit a public records request to the Spokane Regional Health District, the Washington State Department of Health, and/or the Washington State Department of Ecology for a determinaWon as to whether those agencies may hold any responsive records. The respecWve websites for those agencies are, as follows: h p://www.srhd.org/, hh p://www.doh.wa.gov/, hh p://www.ecy.wa.gov/.

This request is now concluded and closed. If you feel we have overlooked anything in responding to your request or if we may be of further assistance, please advise.

Sincerely,

Sabrina Groves

CONDITIONS OF APPROVAL

Contact SRCAA at (509) 477-4727 and/or visit www.spokanecleanair.org before renovation or demolition activity begins to ensure compliance with applicable asbestos regulations. An Asbestos Survey may be required.

- ***** Duct Leakage Affidavits required for most residential HVAC installations and replacements.** Additional Information and Forms available on the WSU Extension Energy Program website: www.energy.wsu.edu/code. Forms are also provided beneath the Mechanical Permit Application found on the City of Spokane Department of Building Services website: www.buildingspokane.org.
- Completed **Duct Leakage Affidavits** to be on-site at time of final inspection and submitted to the Mechanical Inspector to be eligible for an approved final inspection.
- ** No person may perform work requiring a mechanical permit without the appropriate **heating mechanic license where required** by SMC Section 10.29.030.
- A City of Spokane Gas Heating Mechanic license is required to perform gas fitting work. The name and license number must be provided to the City Mechanical Inspector before an inspection may be scheduled.
- An **unauthorized work fee** in the amount of **$150** may be assessed where work was performed by a person without the appropriate license in accordance with SMC 08.02.035(F).

MUST BE POSTED ON JOB SITE

If work has not commenced within 180 days, the permit will be deemed abandoned and become void.
This permit will also expire after 365 days unless an extension is requested through the assigned inspector.

The City of Spokane will continue to process, permit, and inspect projects. We are here to support any and all development and construction that is allowed under current conditions.
The City of Spokane is not in a position to interpret the Governor's Construction Guidance Memorandum of 25 MARCH 2020- that is the responsibility of the project owner/builder.
The project owner/builder must determine, and be responsible for, compliance with the Governor's directives related to COVID-19.
The City's inspection processes for permitting and inspections will be in accordance with all such directives. Meaning; certain processes will be altered, amended, deferred, or unavailable depending on the specific situation. All such decisions will be made on a case-by-case basis.
The City of Spokane's goal is to remain as open and supportive as possible to our building community during this crisis.

Initial Comments

Initial Report Comment:

ERTS Number 528042 - 07/29/2002 COMPLAINANT CALLED TO REPORT HER FORMER EMPLOYER, MR. MOSBY DUMPS DRY CLEANING CHEMICALS BUT ISN`T SURE WHERE. SHE BELIEVES ANOTHER FORMER EMPLOYEE, MS. KIMBERLYN BRYANT CAN TELL WHERE IT IS. MS. BRATON ADMITS TO LAWSUITS SHE HAS AGAINST MR. MOSBY, BUT SAYS THERE ARE VIOLATIONS OF SEVERAL LAWS GOING ON THERE, SOME OF WHICH ANOTHER STATE AGENCY IS LOOKING IN TO.

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB

MS. BRATON GIVES PERMISSION FOR HW EMPLOYEE TO CALL HER IF MORE INFORMATION IS NEEDED. WILL ALSO GET IN TOUCH WITH KIMBERLYN BRYANT FOR OTHER DETAILS.

Medium Desc:	Impermeable Containment		

Inc Primary Category Type:	Oil Spill
Incident Categories:	Oil Spill
Activity Description:	STATIC OR PERFORMING DESIGNED FUNCTION
Cause Type Desc:	HUMAN ERROR
Cause Description:	INATTENTION/DISTRACTION
Impacts:	POTENTIAL POLLUTION ONLY-NO RELEASE
Case Name:	Seven Eleven 20 gallons gasoline to containment
Vessel Facility Name:	
Resp Party Name:	
Narrative Description:	

Fairbairn reported a U Haul truck driven by a customer struck a dispenser causing 20 gallons of gasoline to spill to under dispenser containment and then to a three stage oil water separator. Able Cleanup Technologies responded and contractors pumped the oil water separator and under dispenser containment. No impacts to environment. No further action required.

Initial Comments

Initial Report Comment:

ERTS Number 205704 - LOCOMOTIVE STOPPED ON OVERPASS. COOLING WATER WAS INADVERTANTLY DISCHARGED. WATER CONTAINED AN INERT GREEN DYE WHICH ALARMED A PASSERBY WHO REPORTED THE INCIDENT TO SPOKANE FIRE DEPARTMENT. SPOKANE FIRE DEPARTMENT LATER DETERMINED THAT THE MATERIAL ALSO INCLUDED A CORROSION INHIBITOR THAT WAS CLASSIFIED AS NON-TOXIC ON THE MSDS SUPPLIED BY BURLINGTON NORTHERN. THE MATERIAL, PROBABLY LESS THAN 100 GALLONS, DRAINED THROUGH THE TRACK BED AND OVERPASS DRAIN AND INTO A NEARBY STORMWATER DRAIN.

Tank Detail(s)

Tank Name:	2	**Tank Material:**	Fiberglass Reinforced Plastic
Tank Status:	Operational	**Tank Construction:**	Double Wall Tank
Status Date:	06/14/2005	**Tank Capacity:**	20,000 to 29,999 Gallons
Install Date:	05/12/2005	**Actual Capacity:**	20000
Upgrade Date:		**Pipe Install Date:**	
Perm Closure Date:		**Endorsement Expire:**	01/31/2022
Tank Corrosion Protection:	Corrosion Resistant		
Tank Manifold:	Non-Manifolded Tank		
Tank Release Detection:	Interstitial Monitoring		
Tank Tightness Test:	Part of Automatic Tank Gauging (ATG) System		
Tank Spill Prevention:	Spill Bucket/Spill Box		
Tank Overfill Prevention:	Automatic Shutoff (fill pipe)		
Pipe Material:	Fiberglass		
Pipe Construction:	Double Wall Pipe		
Pipe Corrosion Protection:	Corrosion Resistant		
Tank SFC:	Sump		
Dispenser SFC:	Sump		
Primary Pipe Release Detection:	Automatic Line Leak Detector (ALLD)		
Secondary Pipe Rel Detect:	Interstitial Monitoring (or Sump Sensor)		
Pipe Pumping System:	Pressurized System		
Turbine Sump Construction:

Violation/Evaluation Summary

Note: NO RECORDS: As of April 2021, there are no Compliance Monitoring and Enforcement (violation) records associated with this facility (EPA ID).

Handler Summary

Importer Activity:	No
Mixed Waste Generator:	No
Transporter Activity:	No
Transfer Facility:	No
Onsite Burner Exemption:	No
Furnace Exemption:	No
Underground Injection Activity:	No
Commercial TSD:	No
Used Oil Transporter:	No
Used Oil Transfer Facility:	No
Used Oil Processor:	No
Used Oil Refiner:	No
Used Oil Burner:	No
Used Oil Market Burner:	No
Used Oil Spec Marketer:	No

Hazardous Waste Handler Details

Sequence No:	1
Receive Date:	19970603
Handler Name:	2ND AVE DRUG LAB SPOKANE
Source Type:	Notification
Federal Waste Generator Code:	3
Generator Code Description:	Very Small Quantity Generator

Hazardous Waste Handler Details

Sequence No:	1
Receive Date:	19991215
Handler Name:	2ND AVE DRUG LAB SPOKANE
Source Type:	Implementer
Federal Waste Generator Code:	N
Generator Code Description:	Not a Generator, Verified

Hazardous Waste Handler Details

Sequence No:	2
Receive Date:	19991215

Waste Code Details

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003

Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: WT02
Waste Code Description: Washington State Dangerous Toxic Waste with a toxic constituents concentration greater than or equal to 0.001% and less than 1.0%, determined by biological testing methods or a book designation procedure.

Generator Code Description: Small Quantity Generator

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY

VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: WT02
Waste Code Description: Washington State Dangerous Toxic Waste with a toxic constituents concentration greater than or equal to 0.001% and less than 1.0%, determined by biological testing methods or a book designation procedure.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

Formerly Utilized Sites Remedial Action Program: DOE FUSRAP

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

National Priority List: NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Apr 27, 2021

National Priority List - Proposed: PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Apr 27, 2021

Deleted NPL: DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Apr 27, 2021

SEMS List 8R Active Site Inventory: SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Mar 23, 2021

Inventory of Open Dumps, June 1985: ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites: SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Mar 23, 2021

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS: CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands: IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned: CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens: CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action: RCRA CORRACTS

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Apr 5, 2021

RCRA non-CORRACTS TSD Facilities: RCRA TSD

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Apr 5, 2021

RCRA Generator List: RCRA LQG

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Apr 5, 2021

RCRA Small Quantity Generators List: RCRA SQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Apr 5, 2021

RCRA Very Small Quantity Generators List: RCRA VSQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Apr 5, 2021

RCRA Non-Generators: RCRA NON GEN

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Apr 5, 2021

Federal Engineering Controls-ECs: FED ENG

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Feb 23, 2021

Federal Institutional Controls- ICs: FED INST

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Feb 23, 2021

Land Use Control Information System: LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Emergency Response Notification System: ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System: ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System: ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Nov 9, 2020

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database: FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 6, 2021

FEMA Underground Storage Tank Listing: FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan: FRP

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 2, 2020

Historical Gas Stations: HIST GAS STATIONS

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries: REFN

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Jul 10, 2020

Petroleum Product and Crude Oil Rail Terminals: BULK TERMINAL

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Apr 28, 2020

LIEN on Property: SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Mar 23, 2021

Superfund Decision Documents: SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Feb 23, 2021

State

Hazardous Sites List: HSL

Washington State Department of Ecology (DEC) records of sites that have been assessed and ranked using the Washington Ranking Method (WARM score) - a number between 1 and 5, where a score of 1 represents the highest level of risk and 5 the lowest. Some factors that enter into site hazard ranking include: the amount and type of contaminants present; how easily contaminants could come into contact with people and the environment; and the level of public concern. This database is state equivalent NPL.

Government Publication Date: Apr 12, 2021

Confirmed and Suspected Contaminated Sites List: CSCSL

Confirmed & Suspected Contaminated Sites List made available by the Washington State Department of Ecology (DEC). This database is state equivalent CERCLIS.

Government Publication Date: Apr 12, 2021

Delisted Confirmed and Suspected Contaminated Sites: DELISTED SHWS

This database contains a list of Confirmed & Suspected Contaminated Sites that were removed from the Washington State Department of Ecology (DEC).

Government Publication Date: Apr 12, 2021

No Further Action Sites List: CSCSL NFA

A list of sites previously on the Washington State Department of Ecology (DEC) Confirmed and Suspected Contaminated Sites List (CSCSL) that have received a No Further Action (NFA) determination.

Government Publication Date: Apr 12, 2021

Solid Waste Facility Database: SWF/LF

List of permitted solid waste and landfill facilities made available by the Washington Department of Ecology (DEC).

Government Publication Date: May 3, 2021

Recycling Facilities: RECYCLERS

The Washington State Department of Ecology maintains this database of recycling opportunities available in Washington State.

Government Publication Date: Sep 16, 2020

Solid Waste Tire Facilities: WASTE TIRE

The Washington State Department of Ecology maintains this database of waste tire recycling opportunities available in Washington State.

Government Publication Date: Jun 9, 2020

Leaking Underground Storage Tank (LUST) List: LUST

Leaking Underground Storage Tank (LUST) list made available by the Washington Department of Ecology (DEC) contains information about underground storage tank facilities that require cleanup and their cleanup history.

Government Publication Date: Apr 12, 2021

Petroleum Technical Assistance Program: LUST PTAP

Under the State of Washington's cleanup law, qualifying petroleum contaminated sites can apply for the Pollution Liability Insurance Agency's (PLIA) Petroleum Technical Assistance Program (PTAP). Sites under the PTAP may be provided with informal advice and technical assistance on the requirements of the Model Toxics Control Act (MTCA), which is the state's cleanup law. PLIA also provides written opinions on independent remedial actions on qualifying petroleum cleanup sites: No Further Action (NFA), Further Action (FA), and Partial Sufficiency (PS).

Government Publication Date: Mar 9, 2021

UST Loan and Grant Program: UST LOAN

List of sites that have applied to the Pollution Liability Insurance Agency's (PLIA) UST Loan and Grant Program. PLIA partners with the Washington State Deparment of Health (DOH) to provide loans or grants to owners or operators of underground storage tank (UST) facilities, who wish to: upgrade/replace infrastructure, clean up contamination, or close a UST. Within the program, PLIA provides oversight and technical assistance, while the DOH operates the lending/repayment process.

Government Publication Date: Mar 9, 2021

Heating Oil Technical Assistance Program: LST HOT

Within the Pollution Liability Insurance Agency's (PLIA) various programs, the Heating Oil Technical Assistance Program (HOTAP) provides assistance to owners and operators of active and abandoned heating oil tanks if there is a suspected release or contamination. PLIA provides services including: written opinions, observations of testing, site assessments, and reviews of the results of reports and other appropriate activities. Information in some records has been redacted by the Pollution Liability Insurance Agency under Washington State Legislature RCW 70.149.080.

Government Publication Date: Mar 9, 2021

Underground Storage Tanks: UST

List of Underground Storage Tanks (USTs) made available by Washington Department of Ecology (DEC). The DEC regulates tanks at facilities including gas stations, industries, commercial properties and governmental entities. The DEC works to ensure these tanks are installed, managed, and monitored in a manner that prevents releases into the environment.

Government Publication Date: Apr 12, 2021

Delisted Leaking Storage Tanks: DELISTED LST

List of leaking storage tanks made available by the Washington Department of Ecology (DEC). A record would be removed if it violated the Facility Oil Handling Standards. This list contains all the records that been removed from the storage tank list.

Government Publication Date: Apr 12, 2021

Aboveground Storage Tanks: AST

List of aboveground storage tanks (ASTs) made available by the Washington Department of Ecology (DEC). This list includes many of the largest petroleum containing ASTs in Washington state, but there are many ASTs in many different types of services (including, for example, hydrocarbon storage), that are not subject to regulation and are not registered by the DEC. There is no inclusive AST regulation in Washington state, and the Department of Ecology ceased maintenance of this list in December 2015.

Government Publication Date: Dec 14, 2015

Spills Program Regulated Facilities: AST SPL PREV

List of Class 1, 2, 3, and 4 regulated facilities. The Washington Department of Ecology regulates the equipment and oil transfer, storage, and handling at facilities to ensure environmental and public health. Depending on their classification (Class 1 Large facilities such as refineries, refueling terminals, and pipelines; Class 2 and Class 3 facilities that transfer oil; and Class 4 Marinas and other facilities that transfer oil to non-recreation vessels with a fuel capacity of less than 10,500 gallons), these facilities are required to have some type of spill prevention plan.

Government Publication Date: Feb 25, 2021

Delisted Storage Tanks: DELISTED TNK

List of aboveground storage tanks made available by the Washington Department of Ecology (DEC). A record would be removed if it violated the Facility Oil Handling Standards. This list contains all the records that been removed from the storage tank list.

Government Publication Date: Apr 12, 2021

Environmental Covenants Institutional Controls: INST

List of sites that have institutional controls or environmental covenants (64.70 RCW Uniform Environmental Covenants Act) made available by the State of Washington Department of Ecology. Institutional controls are administrative or legal measures used to prevent activities that may compromise the integrity of a cleanup action. They are meant to prevent exposure to contamination remaining on site. Institutional controls may include environmental covenants (also known as 'deed restrictions'), zoning restrictions, public health advisories, or other administrative tools. The most common institutional control is an environmental covenant. Environmental covenants are legal recorded documents that typically limit certain uses of the property.

Government Publication Date: Apr 12, 2021

Voluntary Cleanup Program: VCP

List of sites under the Voluntary Cleanup Program (VCP) made available by the Washington Department of Ecology (DEC). The VCP is an option for cleaning up hazardous waste sites under the state's cleanup law.

Government Publication Date: Apr 12, 2021

Brownfields Program: BROWNFIELDS

List of Brownfields sites made available by the Washington Department of Ecology (DEC). Brownfield sites are abandoned or underused properties where potential liability due to environmental contamination and cleanup costs complicate re-development efforts.

Government Publication Date: Apr 12, 2021

Tribal

Leaking Underground Storage Tanks (LUSTs) on Indian Lands: INDIAN LUST

LUSTs on Tribal/Indian Lands in Region 10, which includes Washington.

Government Publication Date: Apr 14, 2020

Underground Storage Tanks (USTs) on Indian Lands: INDIAN UST

USTs on Tribal/Indian Lands in Region 10, which includes Washington.

Government Publication Date: Apr 14, 2020

Delisted Tribal Leaking Storage Tanks: DELISTED ILST

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

Government Publication Date: Apr 14, 2020

Delisted Tribal Underground Storage Tanks: DELISTED IUST

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

Government Publication Date: Apr 14, 2020

County

No County databases were selected to be included in the search.

Additional Environmental Record Sources

Federal

PFOA/PFOS Contaminated Sites: PFAS NPL

List of sites where PFOA or PFOS contaminants have been found in drinking water or soil. Made available by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Mar 1, 2021

Facility Registry Service/Facility Index: FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Nov 2, 2020

Toxics Release Inventory (TRI) Program: TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U. S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Feb 19, 2020

Perfluorinated Alkyl Substances (PFAS) Releases: PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Feb 19, 2020

Perfluorinated Alkyl Substances (PFAS) Water Quality: PFAS WATER

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

Hazardous Materials Information Reporting System: HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

National Clandestine Drug Labs: NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Oct 5, 2020

Toxic Substances Control Act: TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.
The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA: HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.
The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing: FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing: FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List: PRP

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Apr 27, 2021

State Coalition for Remediation of Drycleaners Listing: SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS): ICIS

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Mar 24, 2021

Drycleaner Facilities: FED DRYCLEANERS

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) online search. The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Feb 17, 2021

Delisted Drycleaner Facilities: DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Feb 17, 2021

Formerly Used Defense Sites: FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: Jan 28, 2020

Former Military Nike Missile Sites: FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 1, 1984

PHMSA Pipeline Safety Flagged Incidents: PIPELINE INCIDENT

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Jul 7, 2020

Material Licensing Tracking System (MLTS): MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites: HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File: MINES

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

Government Publication Date: Nov 3, 2020

Surface Mining Control and Reclamation Act Sites: SMCRA

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Government Publication Date: Dec 18, 2020

Mineral Resource Data System: MRDS

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2006

Uranium Mill Tailings Radiation Control Act Sites: URANIUM

The Legacy Management Office of the Department of Energy (DOE) manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The L.M. Office manages this database of sites registered under the Uranium Mill Tailings Control Act (UMTRCA).

Government Publication Date: Mar 4, 2017

Alternative Fueling Stations: ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Apr 27, 2021

Registered Pesticide Establishments: SSTS

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Apr 13, 2021

Polychlorinated Biphenyl (PCB) Notifiers: PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Nov 19, 2020

State

Spills Incidents Sites: SPILLS

List of spills and/or releases reported to the Washington Department of Ecology (DEC).

Government Publication Date: Feb 10, 2021

Reported Spills to Water: SPILLS WATER

A list of reported spills to water of one gallon or more made available by the Washington Department of Ecology.

Government Publication Date: Apr 2, 2020

Facility/Site Identification System: ALL SITES

The Facility/Site Identification System made available by the Department of Ecology (DEC) provides a central repository of key information for each facility/site of interest to DEC. The DEC has defined a facility/site as an operation at a fixed location that is of interest to the agency because it has an active or potential impact upon the environment.

Government Publication Date: Apr 16, 2021

Environmental Report Tracking System (ERTS): ERTS

A list of incidents from the Environmental Report Tracking System (ERTS), used by various programs within the Washington Department of Ecology (DEC) to track incidents and activities. This list is made available by the Washington Department of Ecology (DEC).

Government Publication Date: Mar 4, 2021

Independent Cleanup Reports: ICR

List of facilities in remedial action reports received by the Washington Department of Ecology (DEC) from either the owner or operator of the site. These actions have been conducted without department oversight or approval and are not under an order or decree. Independent Cleanup is historical terminology for Voluntary Cleanup; this data is no longer updated, current records can be found in Voluntary Cleanup.

Government Publication Date: Nov 6, 2015

Registered Drycleaners List: DRYCLEANERS

A listing of registered drycleaner facilities maintained by the Department of Ecology.

Government Publication Date: May 26, 2021

Delisted Drycleaners: DELISTED DRYCLEANERS

Sites which once appeared on the list of registered drycleaner facilities made available by the Department of Ecology.

Government Publication Date: May 26, 2021

Tier 2 Report: TIER 2

List of facilities that report storage of hazardous chemicals or materials to the Department of Ecology's Hazardous Waste and Toxics Reduction Program under the Emergency Planning and Community Right to Know Act (EPCRA).

Government Publication Date: Jul 9, 2020

Clandestine Drug Lab Sites: CDL

A list of Clandestine Drug Lab sites made available by the Washington Department of Health.

Government Publication Date: Mar 18, 2020

Clandestine Drug Lab Sites - Historical Listing: HIST CDL

List of Clandestine Drug Lab sites reported to the Department of Health from local health departments. This list contains sites that are not in the current list.

Government Publication Date: until 2007

Air Permitted Facilities: AIR PERMITS

This list of air emissions inventory is a point source summary of individual inventories from facilities with air operating permits. This list is maintained by the Washington Department of Ecology.

Government Publication Date: Jun 10, 2019

Underground Injection Control Wells: UIC

The Water Quality Program of the Washington State Department of Ecology (DEC) maintains this water quality permit database that includes Underground Injection Control (UIC) wells. According to the DEC, UIC wells are manmade structures used to discharge fluids into the subsurface. Examples are drywells, infiltration trenches with perforated pipe, and any structure deeper than the widest surface dimension. The majority of UIC wells in Washington are used to manage storm water and sanitary waste, return water to the ground, and help clean up contaminated sites. The potential for groundwater contamination from injection wells depends upon well construction and location; quality of the fluids injected; and the geographic and hydrologic settings in which the injection occurs.

Government Publication Date: Oct 15, 2020

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental databases were selected to be included in the search.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

RE: CITY DIRECTORY RESEARCH
21F17-31126 ESA
212 S Division St Spokane, WA

Thank you for contac ng ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse lis ng City Directory search to determine prior occupants of the subject site and adjacent proper es. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Lis ng Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either u lized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as mul ple digi zed directories. These do not claim to be a complete collec on of all reverse lis ng city directories produced.

ERIS has made every effort to provide accurate and complete informa on but shall not be held liable for missing, incomplete or inaccurate informa on. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are addi onal addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

100-300 of South Division Street
1-105 of W 3rd Ave
1-105 of W 2nd Ave

Appendix....797
Liability Notice....799

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

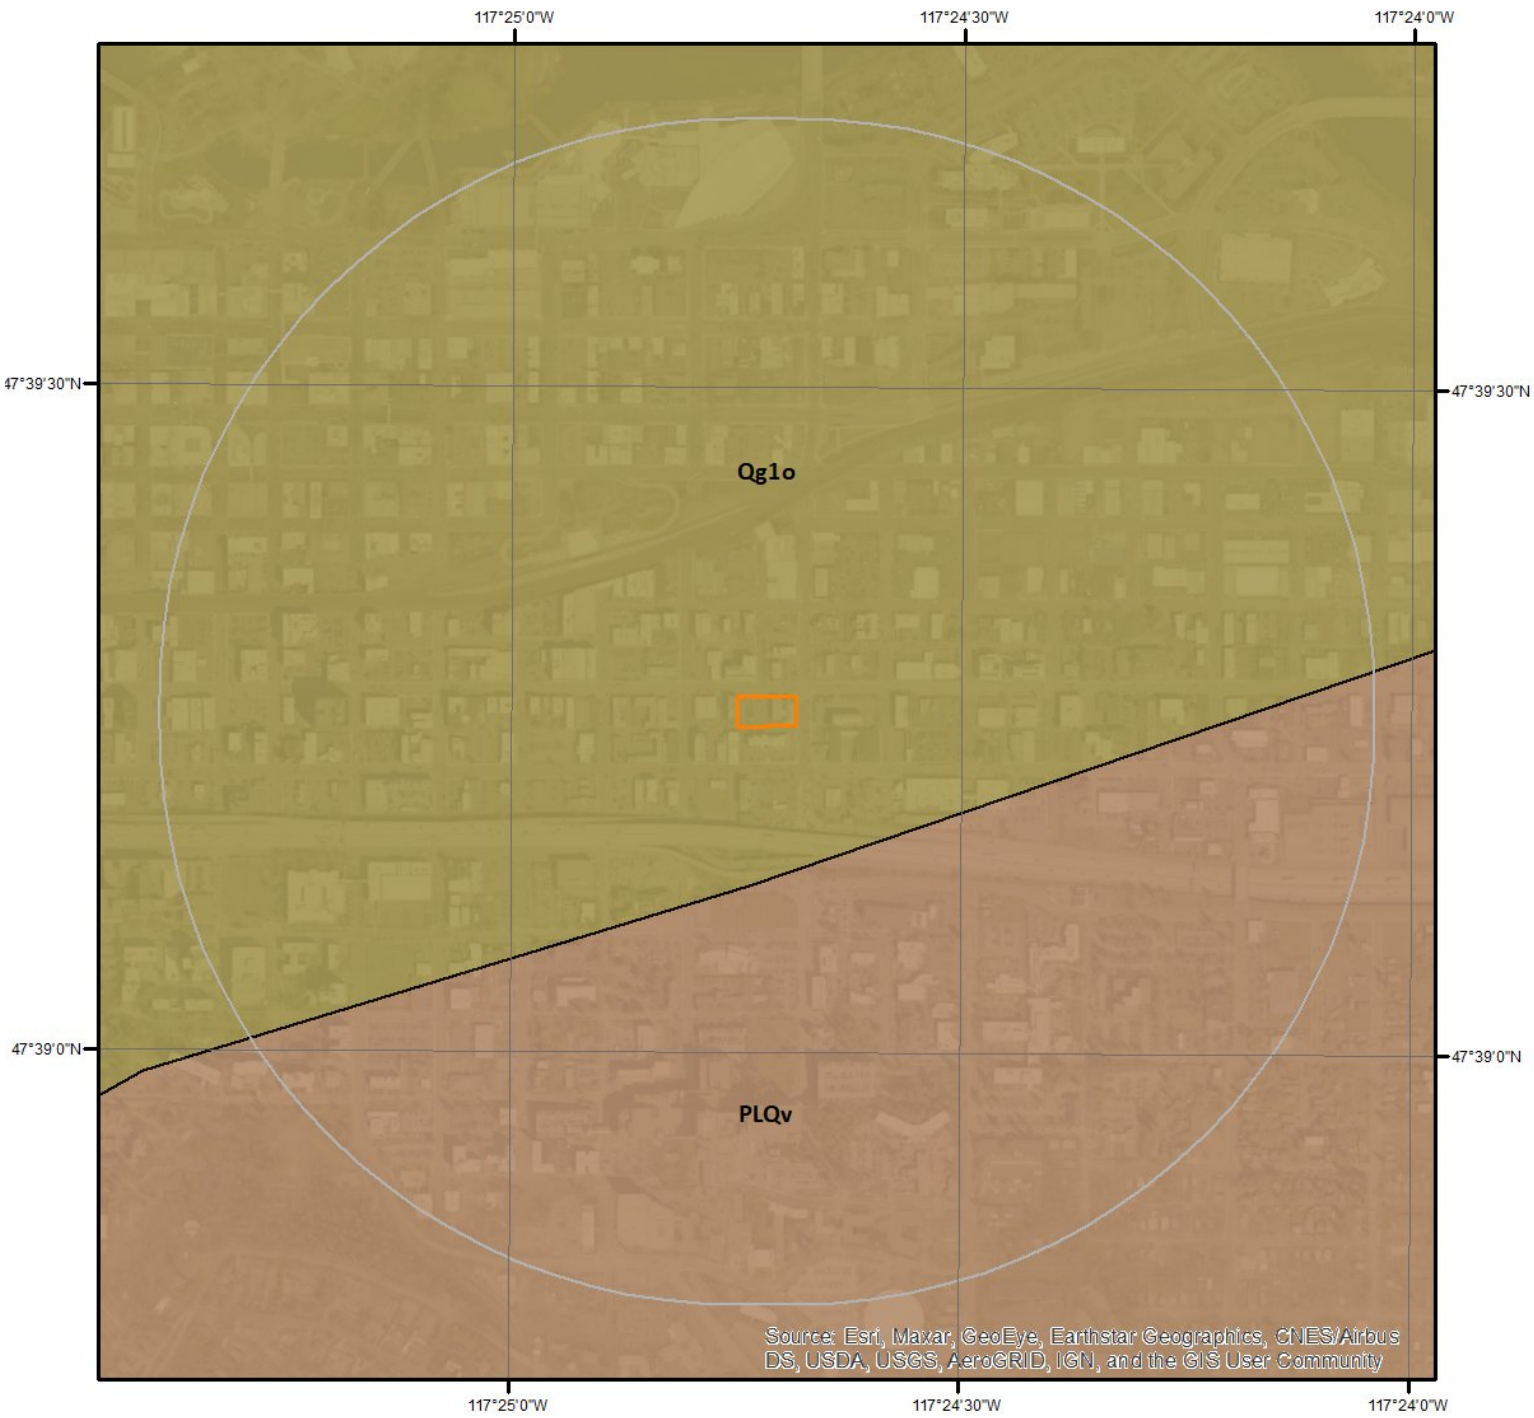
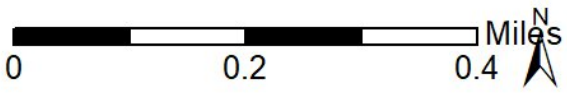
Geologic Information





Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

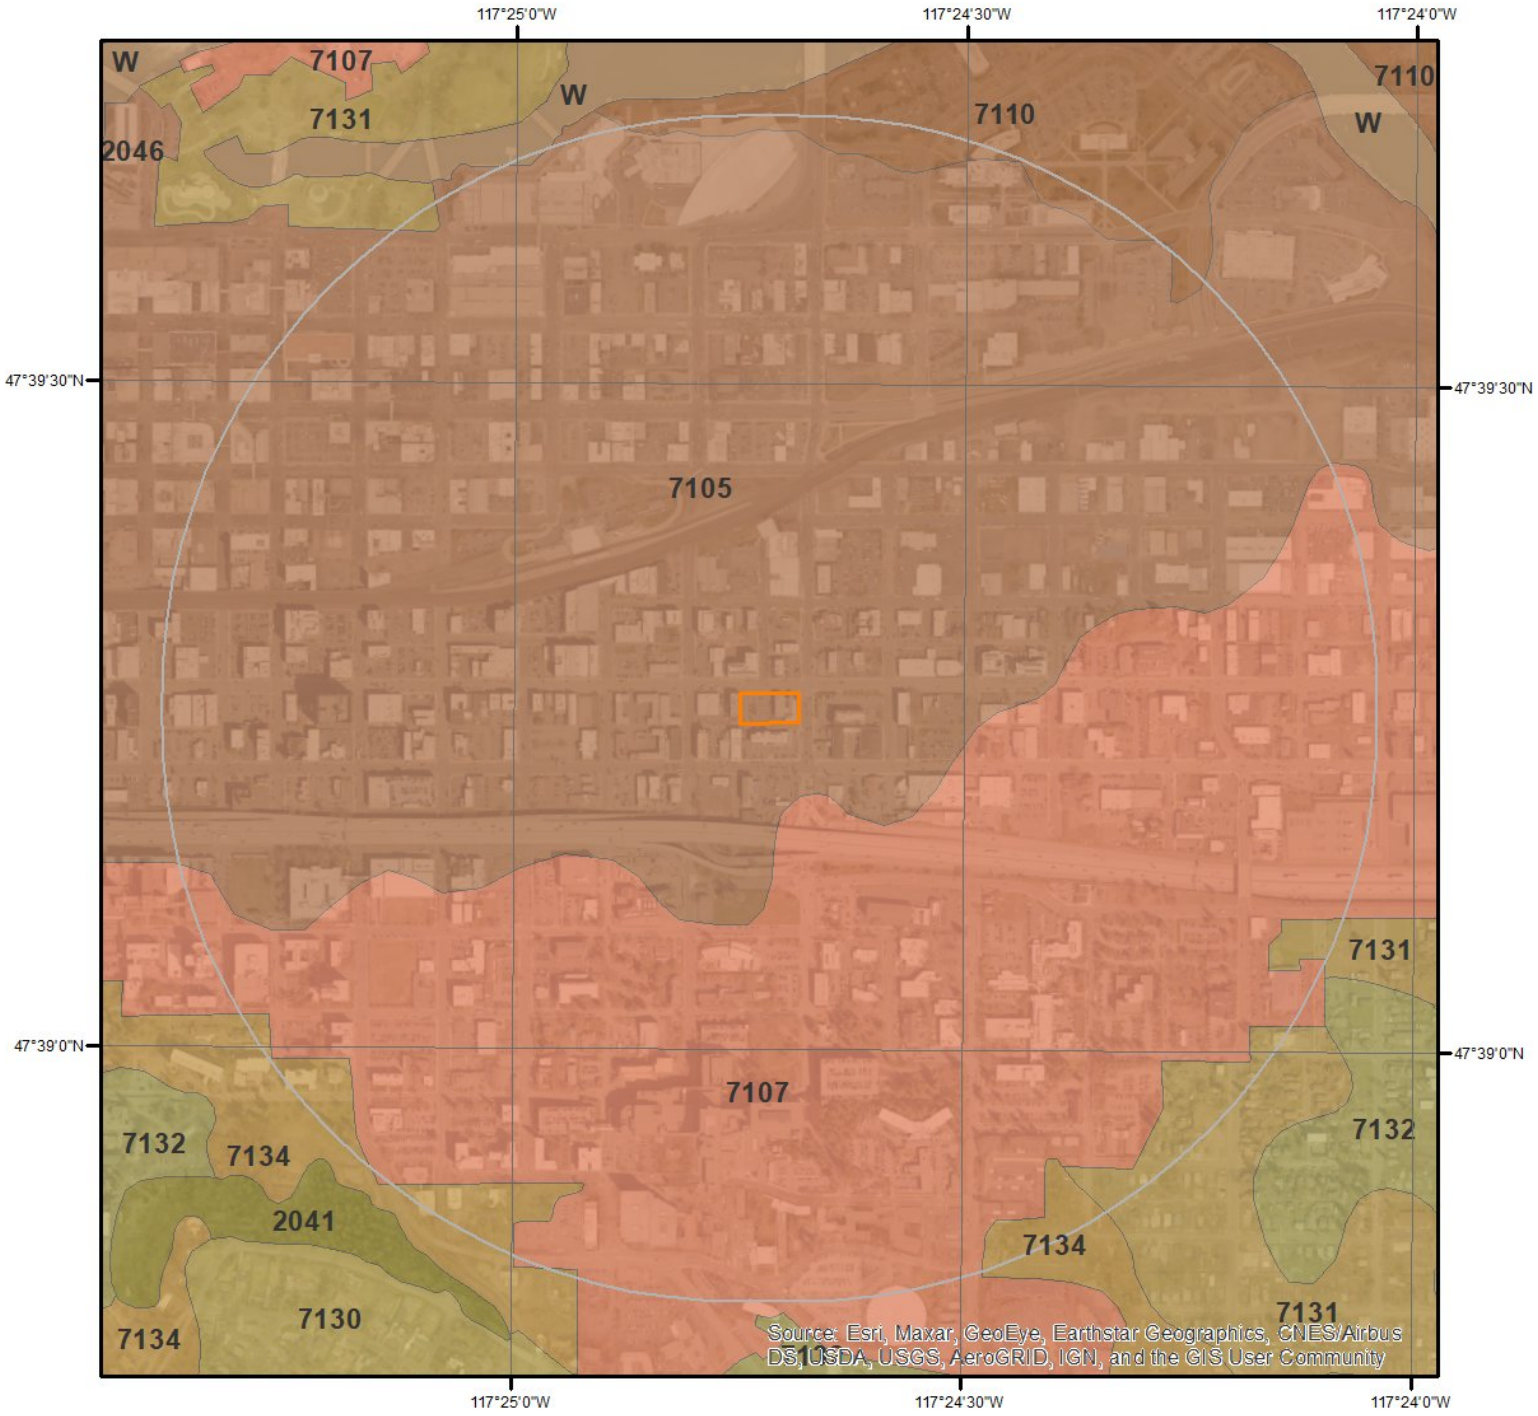
Geologic Unit Qg1o

Unit Name:	Younger glacial drift
Unit Age:	Pleistocene
Primary Rock Type:	outwash
Secondary Rock Type:	stratified drift
Unit Description:	Advance and recessional outwash, stratified drift, and associated deposits. Primarily silt, sand, and gravel with some clay. Includes alluvium locally and scabland deposits of eastern Washington.

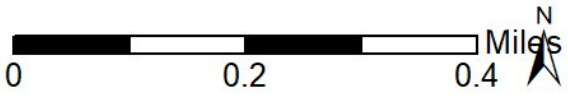
Geologic Unit PLQv

Unit Name:	Pliocene-Pleistocene volcanic rocks
Unit Age:	Mostly Pleistocene
Primary Rock Type:	andesite
Secondary Rock Type:	basalt
Unit Description:	Light-gray andesite, andesite porphyry, and open-textured basalt flows with minor associated mudflows and breccia. Includes restricted areas of valley flow basalt in Snake River Canyon in southeastern Washington and in Spokane area.

Soil Information



SSURGO Soils



This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 7105 (12.14%)

Map Unit Name: Urban land, gravelly substratum, 0 to 15 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 7105 - Urban land, gravelly substratum, 0 to 15 percent slopes

Component: Urban land (95%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Opportunity (3%)
Generated brief soil descriptions are created for major soil components. The Opportunity soil is a minor component.

Component: Marble (2%)
Generated brief soil descriptions are created for major soil components. The Marble soil is a minor component.

Map Unit 7107 (7.18%)

Map Unit Name: Urban land, basalt bedrock substratum, 0 to 15 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 7107 - Urban land, basalt bedrock substratum, 0 to 15 percent slopes

Component: Urban land (95%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Northstar (3%)
Generated brief soil descriptions are created for major soil components. The Northstar soil is a minor component.

Component: Rock outcrop (2%)
Generated brief soil descriptions are created for major soil components. The Rock outcrop soil is a minor component.

Map Unit 7110 (0.99%)

Map Unit Name: Urban land-Opportunity, disturbed complex, 0 to 3 percent slopes

Soil Information

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Opportunity(35%)

horizon Ap(0cm to 18cm)	Very gravelly ashy loam
horizon A1(18cm to 33cm)	Extremely gravelly ashy loam
horizon A2(33cm to 48cm)	Extremely gravelly ashy loam
horizon Bw1(48cm to 84cm)	Extremely gravelly loam
horizon Bw2(84cm to 109cm)	Extremely gravelly loam
horizon Bq(109cm to 135cm)	Extremely gravelly loamy coarse sand
horizon BCk(135cm to 152cm)	Extremely gravelly coarse sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 7110 - Urban land-Opportunity, disturbed complex, 0 to 3 percent slopes

Component: Urban land (60%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Opportunity (35%)
The Opportunity, disturbed component makes up 35 percent of the map unit. Slopes are 0 to 3 percent. This component is on outwash plains, northern rocky mountain valleys. The parent material consists of Sandy and gravelly glaciofluvial deposits with minor amounts of volcanic ash and loess in the upper part. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 4 percent. This component is in the F043AY511WA Warm, Xeric, Loamy Hillsides, Mixed Ash Surface (ponderosa Pine/dry Grass) Pinus Ponderosa / Pseudoroegneria Spicata, Pinus Ponderosa / Festuca Idahoensis ecological site. Nonirrigated land capability classification is 4s. Irrigated land capability classification is 2s. This soil does not meet hydric criteria.

Component: Garrison (1%)
Generated brief soil descriptions are created for major soil components. The Garrison, disturbed soil is a minor component.

Component: Springdale (1%)
Generated brief soil descriptions are created for major soil components. The Springdale, disturbed soil is a minor component.

Component: Marblespring (1%)
Generated brief soil descriptions are created for major soil components. The Marblespring, disturbed soil is a minor component.

Component: Bong (1%)
Generated brief soil descriptions are created for major soil components. The Bong, moist, disturbed soil is a minor component.

Component: Hardesty (1%)
Generated brief soil descriptions are created for major soil components. The Hardesty, disturbed soil is a minor component.

Map Unit 7131 (3.28%)

Map Unit Name:	Urban land-Northstar, disturbed complex, 3 to 8 percent slopes
Bedrock Depth - Min:	66cm

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Northstar(25%)

horizon A1(0cm to 15cm)	Extremely cobbly ashy loam
horizon A2(15cm to 28cm)	Extremely cobbly ashy loam
horizon BA(28cm to 43cm)	Very gravelly ashy loam
horizon Bw(43cm to 66cm)	Extremely gravelly loam
horizon R(66cm to 91cm)	Bedrock

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 7131 - Urban land-Northstar, disturbed complex, 3 to 8 percent slopes

Component: Urban land (60%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Northstar (25%)
The Northstar, disturbed component makes up 25 percent of the map unit. Slopes are 3 to 8 percent. This component is on channeled scablands, basalt plateaus. The parent material consists of loess with an influence of volcanic ash over residuum and/or colluvium derived from basalt. Depth to a root restrictive layer, bedrock, lithic, is 20 to 40 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 7s. This soil does not meet hydric criteria.

Component: Rockly (5%)
Generated brief soil descriptions are created for major soil components. The Rockly soil is a minor component.

Component: Rock outcrop (5%)
Generated brief soil descriptions are created for major soil components. The Rock outcrop soil is a minor component.

Component: Lakespring (3%)
Generated brief soil descriptions are created for major soil components. The Lakespring soil is a minor component.

Component: Springdale (2%)
Generated brief soil descriptions are created for major soil components. The Springdale soil is a minor component.

Map Unit 7134 (1.11%)

Map Unit Name:	Urban land-Northstar, disturbed complex, 15 to 30 percent slopes
Bedrock Depth - Min:	66cm
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	
Hydrologic Group - Dominant:	

Major components are printed below

Northstar(25%)

horizon A1(0cm to 15cm)	Extremely cobbly ashy loam
horizon A2(15cm to 28cm)	Extremely cobbly ashy loam
horizon BA(28cm to 43cm)	Very gravelly ashy loam
horizon Bw(43cm to 66cm)	Extremely gravelly loam
horizon R(66cm to 91cm)	Bedrock

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 7134 - Urban land-Northstar, disturbed complex, 15 to 30 percent slopes

Component: Urban land (60%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Soil Information

Component: Northstar (25%)
The Northstar, disturbed component makes up 25 percent of the map unit. Slopes are 15 to 30 percent. This component is on channeled scablands, basalt plateaus. The parent material consists of loess with an influence of volcanic ash over residuum and/or colluvium derived from basalt. Depth to a root restrictive layer, bedrock, lithic, is 20 to 40 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 7s. This soil does not meet hydric criteria.

Component: Rock outcrop (8%)
Generated brief soil descriptions are created for major soil components. The Rock outcrop soil is a minor component.

Component: Springdale (2%)
Generated brief soil descriptions are created for major soil components. The Springdale soil is a minor component.

Component: Rockly (2%)
Generated brief soil descriptions are created for major soil components. The Rockly soil is a minor component.

Component: Speigle (2%)
Generated brief soil descriptions are created for major soil components. The Speigle soil is a minor component.

Component: Lakespring (1%)
Generated brief soil descriptions are created for major soil components. The Lakespring soil is a minor component.

Map Unit W (75.31%)

Map Unit Name: Water

No more attributes available for this map unit

Component Description:

Minor map unit components are excluded from this report.

Map Unit: W - Water

Component: Water (100%)
Generated brief soil descriptions are created for major soil components. The Water is a miscellaneous area.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *SPOKANE* County: **1**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L
Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L
Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *SPOKANE* County

No Measures/Homes:	449
Geometric Mean:	5.1
Arithmetic Mean:	9.9
Median:	4.9
Standard Deviation:	14.2
Maximum:	152.2
% >4 pCi/L:	59
% >20 pCi/L:	13
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of Washington conducted during 1991-92. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Appendix

Federal Sources

FEMA National Flood Hazard Layer — **FEMA FLOOD**

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data — **INDOOR RADON**

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data — **PWSV**

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level — **RADON ZONE**

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS) — **SDWIS**

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database — **SSURGO**

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data — **US WETLAND**

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo — **US TOPO**

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology — **US GEOLOGY**

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System — **FED USGS**

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

State Sources

Oil and Gas Wells — **OGW**

Oil and gas wells sites made available by the Department of Natural Resources.

Appendix

Public Water System Source Information **PWS**

The Public Water System Source Information database contains information pertaining to Washington State public water systems. The data provides a listing of all Active Water Systems and Source Information based on the selected water system group and county. This data is provided by Washington State's Department of Health. Public Land Survey System (PLSS) locations provided by the source are subject to accuracy limitations inherent to the PLSS system.

Underground Injection Control Wells **UIC**

The Water Quality Program of the Washington State Department of Ecology (DEC) maintains this water quality permit database that includes Underground Injection Control (UIC) wells. According to the DEC, UIC wells are manmade structures used to discharge fluids into the subsurface. Examples are drywells, infiltration trenches with perforated pipe, and any structure deeper than the widest surface dimension. The majority of UIC wells in Washington are used to manage storm water and sanitary waste, return water to the ground, and help clean up contaminated sites. The potential for groundwater contamination from injection wells depends upon well construction and location; quality of the fluids injected; and the geographic and hydrologic settings in which the injection occurs.

Washington State Well Log Database **WATER WELLS**

The Well Log Database contains the well reports that describe the location, ownership, construction details and lithology of the completed wells in State of Washington. Locations are provided as Public Land Survey System (PLSS) values and accuracy is limited as such. The database is maintained by Washington State, Department of Ecology.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. Robert Fagerness

Environmental Professional

Education

M.S., Civil Engineering, California State University Sacramento, Sacramento, CA, 1995

B.S., Environmental Resources Engineering, California State University Humboldt, Arcata, CA, 1989

Project Experience

Due Diligence Environmental Site Assessments - Working with investors, and lending institutions, Mr. Fagerness has completed thousands of Phase I ESAs for property transactions as part of the due diligence process across the nation. This work was performed as part of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. Property types assessed include commercial, industrial, multi-family residential, self-storage facilities, gas stations, automotive service, dry cleaners, day cares and hotels.

Construction Manager, Groundwater Extraction Wells, Conveyance Pipeline, and Remediation Treatment Systems, Aerojet-General Western Groundwater Operable Unit, Rancho Cordova, CA 2010-2014. - The Mr. Fagerness assisted Aerojet-General with construction management services needed for the installation of large-scale groundwater extraction wells, conveyance pipelines, and groundwater treatment facilities. Challenging project requiring installation of remediation system within built-out residential neighborhoods. This work required assistance and cooperation from local, state, and federal agencies. This work also required special use permitting for the installation of a groundwater treatment facility at a site which was zoned residential. Mr. Fagerness was responsible for all permitting, public participation, and field documentation associated with this project. The project was successfully implemented within portions of Rancho Cordova, Gold River, and Eastern Sacramento County.

Multiple LUST Case Closures City of Vallejo Public Works Department, Vallejo CA 2003-2006- While with his previous firm, Mr. Fagerness was the project manager responsible for the investigation and closure of LUST Case files associated with multiple City of Vallejo properties under the management of the Public Works Department including:

- Vallejo Police Department Main Yard
- Vallejo Fire Satation 25
- Vallejo Fire Stateion 23

Robert Fagerness

Environmental Professional

LUST Case Closure, Vallejo Sanitation and Flood Control District, Vallejo, CA - Mr. Fagerness was the project manager responsible for the investigation and closure of leaking underground storage tank (LUST) case file of the Vallejo Sanitation and Flood Control District (VSFCD). Mr. Fagerness successfully conducted additional subsurface investigations allowing a site conceptual model that sufficiently demonstrated there was minimal to no risk leaving residual contamination in place. Based on the model, Mr. Fagerness successfully negotiated LUST case closure with Solano County Local Oversight Program and the Regional Water Quality Control Board (Region 2). The closure saved the VSFCD tens of thousands of dollars with minimal disruption to its active wastewater treatment facility.

Investigation, Remediation, and Closure of Lead and Dioxin/Furan Contaminated Soil, Aerojet-General Site, Rancho Cordova, CA- Mr. Fagerness managed the site characterization, remediation, and confirmation sampling project associated with Aerojet-General Superfund Site in Rancho Cordova California. This work was required by the US EPA with additional oversight by the Regional Water Quality Control Board (Region 5) and Department of Toxic Substances Control (collectively, the Agencies). The work was necessary to allow this portion of the Aerojet Superfund (NPL) Site to be carved out of the contaminated land and cleaned to a level sufficient for future residential development. The remediation involved the removal of contaminated surface soils with disposal to designated TSD facility in southern California. Confirmation Sampling utilized an innovative Incremental Sample Methodology (IMS) which allowed for fewer analytical tests to be needed over the relatively large area remediated. Mr. Fagerness prepared the closure documentation required by the Agencies and was successful at helping Aerojet to carve out this site from the other Superfund properties.

Local Oversight Program, Project Engineer, Solano County, CA- Mr. Fagerness was the Project Engineer overseeing the Solano County Leaking Underground Storage Tank (LUST) Program. This work included the review of consultant's calculations and proposed work plan for the installation and operation of soil and groundwater remediation systems used to remove petroleum and other contaminants from the subsurface environment. Used engineering experience and calculations to verify the accuracy and thoroughness of consultant's groundwater monitoring reports. I provided approval or recommendations for revision based on my engineering review. Worked directly with Department Management, County Supervisors, State Regulatory program officials, and general public (RPs) to ensure prompt response and accuracy within the LOP.

Local Oversight Program, Project Engineer, Environmental Site Assessment and Remediation, Abandoned Agricultural Sites, Central and San Joaquin Valleys, CA - Mr. Fagerness was responsible for the project management, site investigation and remediation of fourteen (14) separate abandoned farm sites located in the Central and San Joaquin Valleys. This work was completed for the Rural Economic and Community Development Division through the US Department of Agriculture (USDA) and the US Army Corp of Engineers (Sacramento Division). This work included the removal of underground and aboveground storage tanks (USTs/ASTs). The work additionally involved regulatory permitting for UST/AAT removals. Involved coordinating subcontractors, analytical laboratories and site contact to ensure project goals and objectives were met successfully and within budget. Responsible for coordinating staff to write the results of the field investigations including (data review and qualification, interpretation and summation of the analytical data, field documentation, and project narrative.

NPDES Program, Water Resources Control Engineer, Discharge projects in the San Joaquin Valley, CA - Mr. Fagerness was responsible for managing National Pollutant Discharge Elimination System (NPDES) sites in San Joaquin County, California. Used engineering skills and experience to assist with review of appropriateness of NPDES treatment systems. Verified calculations submitted by engineering firms on behalf of NPDES dischargers. Performed annual compliance inspections of NPDES facilities. Performed joint inspections with local and EPA officials specific to Industrial Discharge Users of municipal sewer systems. Responsible for review and interpretation of dischargers including the cities of Stockton, Lodi, Lathrop as wells as the Manteca Landfill, and CalAmco ammonia discharges.
