

INSTRUCTIONS – NEW JERSEY REALTORS* SELLER'S PROPERTY CONDITION DISCLOSURE STATEMENT

C 2018 New Joney REALTORS

Effective August 1, 2024, the New Jersey Real Estate Consumer Protection Enhancement Act, <u>PL.2024.c32</u>, requires sellers of residential property located in New Jersey to complete and sign a property condition disclosure statement as promulgated by the New Jersey Division of Consumer Affairs pursuant to <u>N.J.A.C.</u>, 13:45A-29.1. This requires all sellers of residential real estate to provide the property condition disclosure statement to a prospective buyer before the prospective buyer becomes obligated under any contract for the purchase of the property.

Additionally, the New Jersey Law of Flood Risk Notification, <u>PL2023.c93</u>, requires sellers of all real property located in New Jersey to make certain supplemental disclosures concerning flood risks on the "Flood Risk Addendum" incorporated within the property condition disclosure statement. As a result of these two laws:

- All sellers of residential property must complete Questions 1-108 on the property condition disclosure statement; and
- All sellers of residential and non-residential (i.e. commercial), must complete the Flood Risk Addendum, Questions 109-117, on the property condition disclosure statement.

Moreover, regarding the property condition disclosure statement, the New Jersey Division of Consumer Affairs has provided the following instructions:

The purpose of the Property Condition Disclosure Statement ("Disclosure Statement"), including the Flood Risk Addendum, is to disclose the condition of the property, as of the date set forth on the Disclosure Statement or Flood Risk Addendum. The seller is under an obligation to disclose any known material defects in the property even if not addressed in this printed form. The seller alone is the source of all information contained in this form. All prospective buyers of the property are cautioned to carefully inspect the property and to carefully inspect the surrounding area for any off-site conditions that may adversely affect the property. Moreover, this Disclosure Statement is not intended to be a substitute for prospective buyer's hiring of qualified experts to inspect the property.

If a property consists of multiple units, systems and/or features, please provide complete answers on all such units, systems and/or features even if the question is phrased in the singular, such as if a duplex has multiple furnaces, water heaters, and fireplaces.

Pursuant to PL 2024, c.32, completion of questions 1 through 108 is mandatory for all sellers of residential real property in the State. Sellers of residential real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the property. Questions 1 through 108 must be answered to the best of the seller's knowledge, unless otherwise stated.

Pursuant to N.J.S.A. 56:8-19.2, completion of the "Flood Risk Addendum" questions 109 through 117 of the Disclosure Statement, is mandatory for all sellers of real property (including both residential and non-residential property). Sellers of real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the property. This is the case regardless of whether a seller completes questions 1-108 of the Disclosure Statement. Sellers must verify their answers to questions 109 and 110, and may do so using the Flood Risk Notification Tool located at flooddisclosure.nj.gov. Questions 111 through 117 must be answered based on the seller's actual knowledge.

A seller must execute a separate acknowledgement for each portion of the Disclosure Statement that the seller completes. If a seller does not answer questions 1 through 108, no acknowledgement is required for that portion. However, the mandatory Flood Risk Addendum must still be completed and acknowledged in all cases.

Lastly, New Jersey REALTORS* Seller's Property Condition Disclosure Statement, Form #140, includes an Addendum Regarding Statutory Disclosures & Other Items, Questions 118-136a, to be answered to the best of seller's knowledge as required by law.

NEW JERSEY REALTORS* SELLER'S PROPERTY CONDITION DISCLOSURE STATEMENT ADDENDUM REGARDING FLOOD RISK

C 2010 Now Jones REALTORS:

Pursuant to N.J.S.A. 56:8-19.2, all Sellers of real property (including both residential and non-residential property) must complete questions 109-117 below.

Scilers of real property must answer these questions before the purchaser becomes obligated under any contract for the purchase of the Property. This is the case regardless of whether the Seller completes questions 1-108. Sellers must verify their answers to questions 109-110, and may do so using the Flood Risk Notification Tool located at <u>nireal.to/flood-disclosure</u>. Questions 111-117 must be answered based on the Seller's actual knowledge.

Flood risks in New Jersey are growing due to the effects of climate change. Coastal and inland areas may experience significant flooding now and in the near future, including in places that were not previously known to flood. For example, by 2050, it is likely that sea-level rise will meet or exceed 2.1 feet above 2000 levels, placing over 40,000 New Jersey properties at risk of permanent coastal flooding. In addition, precipitation intensity in New Jersey is increasing at levels significantly above historic trends, placing inland properties at greater risk of flash flooding. These and other coastal and inland flood risks are expected to increase within the life of a typical mortgage originated in or after 2020.

To learn more about these impacts, including the flood risk to your Property, visit nireal to/flood-disclosure. To learn more about how to prepare for a flood emergency, visit nireal to/flood-planning.
