

OFFICIAL GEORGIA WOOD INFESTATION INSPECTION REPORT

Company Name Pestmaster Services License No. 100899
 Address 1741 Hog Mountain Road, Watkinsville, GA 30677
 Telephone No. (912) 965-0733 Date of Issuance 04/20/2026
 Seller Gerald and Eilizabeth Newman Inspector Adam Kilpatrick PRS
 File No. _____ Purchaser(s) Listing

SCOPE OF INSPECTION

An inspection of the below listed structure(s) was performed by a qualified inspector employed by this firm to determine the presence or previous presence of an infestation of the listed organisms and is not intended to be a structural report. Neither is this a warranty as to absence of wood destroying organisms. **This report is subject to all conditions enumerated on the reverse side and is issued without warranty or guarantee except as provided in Rule 620-6-.03 of the Rules of the Georgia Structural Pest Control Act or subject to any treatment guarantee specified below.**

Main Structure Single Family Dwelling- Crawlspace
 Other Structure(s) NA
 Address of Structure(s) 295 Cedar Creek Drive, Athens, GA, 30605

FINDINGS

Inspection Reveals Visible Evidence of:	Active Infestation		Previous Infestation	
	YES	NO	YES	NO
Subterranean Termites	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Powder Post Beetles	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Wood Boring Beetle	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Dry Wood Termites	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Wood Decaying Fungus (Not Molds and Mildews)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Were any areas of the structure obstructed or inaccessible?	<input checked="" type="checkbox"/> YES	<input type="checkbox"/> NO		

If yes, list these areas (see Item 3 on reverse side of form)
Behind or under fixed ceilings, wall coverings, flooring, siding, personal stored items, insulation and appliances.

The following conditions conducive to infestation for wood destroying organisms were found at the time of inspection. The location of these conditions conducive to infestation are indicated on the attached diagram:
None

Remarks/Additional Findings:
Possible hidden infestations in areas that are obstructed or inaccessible.

NOTE: If visible evidence of active or previous infestation is reported it should be assumed that some degree of damage is present and a diagram indentifying the structure(s) inspected and showing the location of such evidence must be attached to this form. Evaluation of damage and any corrective action should be performed by a qualified inspector in the building trade approved by the purchaser and lending agency.

TREATMENT

The above described structure(s) was treated by this company as follows:

Organism	Treatment Date	Contract Expiration	Type Treatment (Chemical, Barrier, Bait, Wood Treatment)
Subterranean Termites	_____	_____	_____
Powder Post Beetles	_____	_____	_____
Wood Boring Beetles	_____	_____	_____
Dry Wood Termites	_____	_____	_____
Wood Decaying Fungus	_____	_____	_____

The present treatment warranty(ies) is:

Transferable to any subsequent owner of the property upon payment of a fee on or before expiration date.
 Not transferable to any subsequent owner of the property.
 The above structure(s) are not covered by a treatment contract with this company.

This structure has a current Official Waiver Form issued by this Company YES NO
 If Yes, a copy must be attached as part of this report.

CERTIFICATION

CONDITIONS GOVERNING THIS REPORT

1. This report is limited to the five organisms listed.
2. This report covers only those structures listed on the front.
3. Inspection, including sounding and/or probing, was performed in only those areas which were readily accessible. Inaccessible areas not inspected include, but are not limited to areas obstructed by, floor coverings, siding, fixed ceilings, insulation, furniture, appliances or other personal items. The inspection also included a check of company records to determine if the structure has been treated and/or under renewal contract with the company within the past two years for any of the covered organisms. A copy of any current Official Waiver form for this structure must be included as part of this report.
4. Reporting of Wood Destroying Fungi on this report is intended to cover only white rot, brown rot or water conducting fungi infestations which occur below the first floor level. This report does not cover the reporting of molds and mildews. Structural Pest Control companies are not responsible for inspecting for molds.
5. The term Wood Boring Beetles as used on the reverse side means only those beetles which are known to establish and maintain a continuing infestation in structures, such as, but not limited to the Old House Borer.
6. Regardless of whether any visible evidence of infestation by any of the listed Wood Destroying Organisms is found during inspection, if an infestation of one or more of these organisms from which apparent freedom was certified is found within 90 days of issuance of this report the property shall receive, free of charge, a minimum adequate treatment for control of the infestation consistent with Rules 620-6-.03 (1) (a), (b), (c) and (d), of the Georgia Structural Pest Control Act.
7. This is not a structural report. A wood destroying organism inspector is not ordinarily a construction or building trade expert and is therefore not expected to assess structural soundness. Evaluation and correction of damage which may have resulted from an active or previous infestation should be performed by a qualified inspector in the building trade, who is approved by the purchaser and the lending agency.
8. This report implies no responsibility on the part of the Georgia Department of Agriculture or the Georgia Structural Pest Control Commission to enforce or require any thing other than treatment or retreatment to the minimum adequate treatment requirements specified in Rule 620-6-.04.
9. Conditions conducive to Infestation means conditions that exist in a structure that favor the development of wood destroying organisms. These are limited to: cellulosic material underneath a building and wood in contact with the soil which has not been treated with preservatives to a minimum preservative retention designed for ground contact and ventilation of the under-floor space between the bottom of the floor joists and the earth that does not meet the requirements of the International Residential Building Code for one and two family dwellings, the latest edition as adopted and amended by the Georgia Department of Community Affairs. Any Condition conducive to infestation as defined above, that is known to have existed at the time of inspection and was not reported and is found within 90 days of the issuance date of this report shall be corrected free of charge by the licensee.

Electronic Communication Acknowledgement Statement. In accordance with state regulations, pest control companies have a responsibility to provide you with a record every time a pesticide product and/or pest systems is applied. This record is required to be provided to the property owner, resident or custodian of the property. This record may include post-application precautionary information. Licensed and regulated by the Georgia Department of Agriculture, 19 Martin Luther King, Jr. Drive, Atlanta, Georgia 30334 (404) 656-3641.

I understand and request that my pesticide use records be provided or made available to me electronically.
