***UBIQUITY FULL HOME AUTOMATION SYSTEM- included, but not warranted.***

<https://simpleflytech.com/2021/07/14/unifi-smart-home>

Full rack system includes 8 exterior cameras, all fully automated with 24hr constant video and audio recording. Fully charged full Wi-Fi signal to the entire living space inside and outside of the home. The tech company that installed the system has agreed to do a system set-up and streamline for the new clients. The seller will pay his initial training expenses for the transfers. Point to point amplifiers/receivers in each area of property allow master access to track any and all IP addresses or devices within range of the Wi-Fi used on entire property. Additional display for cameras is featured on the wall mount display monitor next to kitchen for full time access to all feeds Realtime/Live.

Includes WIFI amplifiers to ensure all exterior entertainment areas have signal.
