--------------------------	-------	-----------	-------------

Sweetgum (18" d.b.h. Behind Client's Fenced-in Back Yard)

Remove tree and cut stump close to grade. Tree removal operations prioritize minimizing impact on the surrounding landscape and gardens. Resulting debris and wood will be removed from the site unless otherwise specified. Larger debris is often removed by a separate truck, approximately within 24-72 hours from the service date.

\*Stump grinding is not included unless specified in a separate line item.

Pruning - Raising Tree(s):	5	\$ 150.00	\$ 750.00
-------------------------------	---	-----------	-----------

White Oak (Left Hand Side of Client's House)  
 Sweetgum (Lining Carrington Dr.)  
 White Oak (Lining Carrington Dr.)  
 Maple (Lining Carrington Dr.)

Prune to remove lower branches to provide 8 to 10 feet of clearance above the ground and/or 3 to 4 feet of clearance above roof and structures. Raising the canopy improves sunlight penetration and provides clearance for traffic and buildings below the tree canopy.
